## ALLIED FORCES CONTINUE THEIR ADVANCE

### With Chateau Thierry in Their Hands, They Cut Road South of Soissons

#### UNWOUNDED GERMANS CAPTURED ARE MORE IN NUMBER THAN ALL CASUALTIES OF ALLIED FORCES

#### SOISSONS-CHATEAU THIERRY ROAD, CROSSED BY FRENCH AND RAILWAY IS CUT BY ADVANCING AMERICANS

**Large Number of Undamaged Guns Taken by Victorious Entente Troops Between Aisne and Marne; Huge Quantities of Ammunition Also Taken**

With the French Army in France, July 22.—(By the Associated Press).—The Allied forces have taken a large number of prisoners in their offensive movement, the number being more than has been announced, and batches of captives are arriving steadily. The number of unwounded prisoners alone would appear to exceed the total casualties of the Allied troops since the victorious advance began. The writer has seen a large column of these prisoners coming, and from their appearance they certainly were picked men.

The number of undamaged cannon which has been taken by the Allies is very large and is constantly increasing, while at the same time large quantities of ammunition have been captured. The advance of the armies commanded by General Mangin and General de Goutte averages ten kilometres, while General Berthelot's forces, smashing at the other side of the pocket containing the defeated Germans, also are progressing appreciably. The French, British and Americans are working in the closest co-operation and with absolute harmony, although the fighting is becoming heavier each hour.

### FRENCH MILITARY CRITICS STATE GAINS MAKE BATTLE NEW GREAT MARNE VICTORY

Paris, July 22.—(Havas Agency Dispatch).—All the military critics here have come to the conclusion that whatever happens now the Allied counter-offensive is a new and great victory of the Marne.

The Petit Parisien says: "Between the dream of a break-up of the French army and the breaking of the German army in front of the French there is a difference that perhaps even the German people will perceive."

Premier Clemenceau's newspaper, L'Homme Libre, says: "With such a leader as Foch, who can tell to what result this new victory of the Marne may lead?"

Paris, July 22.—With Chateau Thierry has fallen one of the pivots of the German front between the Aisne and the Marne, says Le Liberte in commenting upon the new developments. The other pivot is Soissons, where the Germans are no longer secure.

French troops entered Chateau Thierry Sunday morning on the heels of General de Mitry's patrols, which had penetrated the town during the night. The departure of the Germans resembled a flight. They withdrew along the road towards Fere-en-Tardenois. The withdrawal is extending along the road from Chateau Thierry to Soissons by the way of Oulchy-le-Chateau, which seems to be evacuated.

### TROOPS WERE SENT TO JOLIETTE, QUE.

**Riot Was Threatened When Man Was Arrested Under Army Act**

Joliette, Que., July 22.—Since a detachment of the Fourth Battalion of the C. G. R. arrived here Saturday conditions have been quiet, though it is stated that an exceedingly large number of revolvers have been purchased in the town and there have been threats of looting the arsenal.

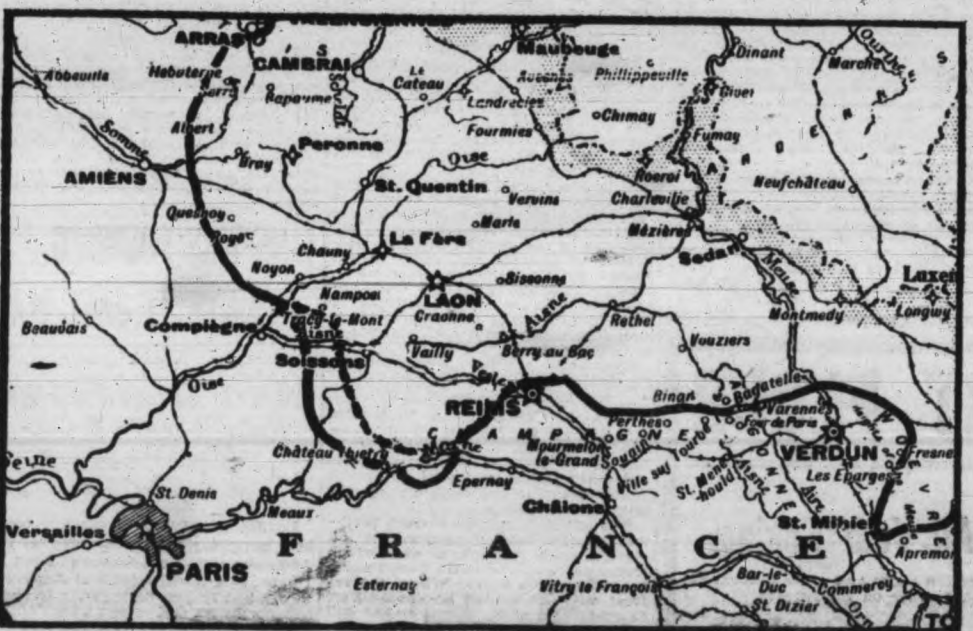

The detachment of troops was sent here under Major Austin following a near riot when Dominion Police arrested a farmer named J. A. Joly, of this town. A crowd collected and by the time the police and their captive reached the lockup there were many hundreds of shouting men and the outlook was very threatening.

A number of men are said to be trying to avoid arrest and others are making threats to shoot the Dominion Police on sight. Hence the appearance of the soldiers.

**CLEMENCEAU AT FRONT.**  
Paris, July 22.—Premier Clemenceau returned to Paris last night from the front. He spent all Saturday night and most of Sunday with the fighting men.

**KING RECEIVES HOOVER.**  
London, July 22.—Herbert C. Hoover, the American Food Administrator, was received by King George at Buckingham Palace this morning.

### WHERE ALLIED FORCES ARE ADVANCING

The above map indicates the results so far of the Allied offensive on the westerly side of the Soissons-Marne-Rheims front.

### German Submarine Sent to Bottom by British Destroyer

London, July 22.—The British destroyer Marne has sunk a German submarine, says a statement issued to-day by the Admiralty here.

### ENEMY FORCED TO SHIFT MORE MEN

German Crown Prince Compelled to Call on Rupprecht for Help

With the French Army in France, July 22.—The German Crown Prince has been obliged to call for help from his cousin, Crown Prince Rupprecht of Bavaria. German divisions from the army in the north have been hurried down to protect the western flank of the defeated army which has been driven back over the Marne and ejected from Chateau Thierry by Franco-American troops.

**Rearguard Actions.**  
London, July 22.—Rearguard actions are being fought by the Germans north of Chateau Thierry. These were organized to delay the pursuit of the fleeing enemy by the Allied troops, who on Sunday passed through Chateau Thierry and advanced north-east of that cornerstone of German conquest in eastern France.

The reaction is marked between Grisolles and Bezu-St. Germaine, two villages north-northwest and north of Chateau Thierry at a distance of approximately seven and four miles respectively. Between Grisolles and Bezu-St. Germaine the German attacks were broken and the Allied line was maintained throughout.

North of the Ourcq River the reaction of the enemy was limited to artillery fire.

This was also the case between the Marne and Rheims, notably in the region west of Rheims Mountain and in the Courton and Roy woods.

**South of Soissons.**  
South of Soissons the Americans are reported to have advanced a distance of a mile and a quarter. In the Ourcq valley Allied troops are steadily pounding their way toward Nanteuil-Notre-Dame. Southwest of Rheims there seems to be an indication that they have initiated a new drive for the purpose of outflanking the Germans between Marfaux and Chantillon.

If this last movement develops, the Allies' "nutcracker" will be in full motion. Between the Allied front south of Soissons and the town of Bouilly, (Concluded on page 4.)

### GROWING UNREST CAUSED MUTINIES IN BOHEMIA AND HUNGARY, IT IS REPORTED

London, July 22.—(Via British Wireless Service).—Very serious revolts have occurred in Bohemia and Hungary. At Manaros Szejt 150 officers and 500 Czech-Slovaks who mutinied were shot and 3,000 others arrested.

From a reliable source news has come to hand that serious mutinies have taken place in Dalmatia and Bohemia. Jugo-Slavs have deserted by the wholesale and escaped to the mountains after killing their officers and other officials. Armed bands, completely organized, are said to be operating in some districts.

### Seydler Cabinet in Austria Finally Has Got Out of Office

London, July 22.—The entire Austrian Cabinet, headed by Premier von Seydler, has resigned, says an Exchange Telegraph dispatch from Copenhagen to-day. Emperor Charles, it added, has accepted the resignations of the Ministers.

### FURTHER GROUND GAINED BY BRITISH IN OPERATION SOUTHEAST OF HEBUTERNE

London, July 22.—Further ground has been gained by British troops in the Hebuterne region, on the front between Albert and Arras, the War Office announced to-day. British troops likewise, in conjunction with French troops, carried out a successful enterprise to the south of Villers-Bretonneux, east of Amiens, in which prisoners were taken.

German trenches were entered during the night by British raiding parties at several points on the front, including Neuville-Vitasse and north of Bailleul, and prisoners were taken.

The text of the statement follows: "Further ground was gained by our troops yesterday southeast of Hebuterne, and hostile bombing attacks in this neighborhood were repulsed. We captured a few prisoners."

"In conjunction with French troops we carried out a successful minor enterprise last night south of Villers-Bretonneux, capturing a few prisoners and machine guns."

"Raiding parties of our troops entered enemy trenches during the night at Neuville-Vitasse at Calonne-sur-la-Lys and north of Bailleul, and brought back prisoners. A hostile raid in the last mentioned sector was repulsed."

"The enemy artillery was active on the Locrine sector."

### Foch's Forces Steadily Pressing Back Desperately Resisting Enemy South of Soissons; Communications Serving Germans to South Severed

Paris, July 22.—Pushing in south of Soissons, French troops have crossed the Soissons-Chateau Thierry road north of Villemontore, opposite Buzancy. The Temps announces to-day in describing the situation in the Soissons area.

With the American Army on the Aisne-Marne Front, July 22.—2 p. m.—(By the Associated Press).—The Germans are clinging desperately to the line south of Soissons in an effort to protect their flanks.

American troops fighting on this front have completed the cutting of the narrow gauge railway to Chateau Thierry.

### Honduras Has Joined Allies by Declaring War Against Germany

Washington, July 22.—Honduras, which broke diplomatic relations with Germany on May 18, followed that action last Friday by declaring war. The State Department here was notified to-day of the action.

### Italians Continue to Gain Ground in the Albanian Field

Rome, July 22.—The Italian troops are continuing to gain ground in the bend of the Devoli River in Albania, the War Office here announced to-day. The advancing troops yesterday took seven Italian prisoners and captured seven machine guns.

### VICTORIA POSTMEN ON STRIKE TO-DAY

Will Be Dominion-Wide; No Deliveries Until Demands Are Acceded

The letter carriers of Victoria, Vancouver, New Westminster, Winnipeg and Toronto are out on strike. They will remain out until the Dominion Government agrees to appoint a Board of Conciliation and Investigation as asked for in a resolution forwarded to the Postmaster-General nine days ago. In the resolution referred to the letter carriers intimated that unless a satisfactory reply to their request was received before this morning there would be no mail delivery. At 10 o'clock last night the Postmaster-General wired to the effect that the extra-Provincial grant allocated during the recent sitting of the House of Commons would be paid. No amount was stated in his wire neither did he indicate what branches of the service were to be included in the grant.

The communication also intimated that it was impossible for the Minister to consider further action in the way of increased pay in the absence of other members of the Dominion Executive. With no more satisfactory information than this the Victoria Letter Carriers decided to carry the strike into effect.

The Vancouver Association officials telephoned over this morning to know the situation in this city, and as a refreshing change the Terminal City has taken its cue from Victoria, and the letter carriers there are also "resting." There will be no mail delivery now until the Board of Conciliation is appointed or definite instructions are received from the Dominion Executive of the Letter Carriers' Association at Toronto.

(Concluded on page 7.)

### FIRE IN ONTARIO.

St. Catharines, Ont., July 21.—Fire last night destroyed the plant of the Peerless Pump Company, of Thorold, at a loss of nearly \$200,000. Only a small portion of the loss is covered by insurance.

**Report From Pershing.**  
Washington, July 22.—Fresh successes won by the American forces in their drive between the Aisne and the Marne were reported in General Pershing's communique for Sunday, received to-day at the War Department. The Americans were driving ahead with undiminished vigor and spirit, the statement said.

More than 6,000 prisoners, over 100 cannon and many trench mortars and machine guns have been taken by American divisions in the last few days on the Aisne-Marne front. General Pershing reported. This was accepted as meaning that the reference in Saturday's statement to 17,000 prisoners included those captured by both French and American units.

## FURTHER RAIDS BY ALLIED AVIATORS IN CHATEAU THIERRY EARLY YESTERDAY

London and Paris Last Night Reported Dropping of More Bombs

London, July 22.—The following official communication dealing with British aerial operations on the west front and in Belgium was issued here last night:

"On July 20, except in the early morning, the weather again was unsuitable for photographic work and long distances reconnaissance, but it did not prevent our aeroplanes from bombing on the front and carrying out close reconnaissance and observation for the artillery throughout the day.

"Eighteen tons of bombs were dropped by us on different targets, including the Courtrai and the Lille railways, the Bruges docks, three large ammunition dumps and hostile billets on various parts of the front.

"Slightly more fighting took place than on the previous day and fourteen enemy machines were brought down. Three other hostile machines were driven down out of control and three German observation balloons were destroyed.

"Seven of our aeroplanes are missing.

**French Report.**

Paris, July 22.—Dealing with aerial operations, an official report issued here last night said:

"July 20—Storms and low clouds hampered the work of our aviators. Eleven German machines were downed by our anti-aircraft guns. French and British aviators made several raids in the battle zone and six tons of explosives were dropped on bivouacs, convoys and concentration points of the enemy. Second Lieut. Funck downed seven machines in four days, making fifty-six machines that have been downed by this pilot.

"Belgian communication.—Second Lieut. Coppens, of the artillery, downed two enemy balloons. One aeroplane was downed by anti-aircraft guns.

Some of the British battleships have searchlights so powerful that a newspaper may be read by their light by a person eighteen miles away.

## TRY TO CONCEAL EXTENT OF DEFEAT

German Leaders Attempt to Keep Their People in the Dark

London, July 22.—(Via Reuters' Ottawa Agency.)—The newspapers here expose the absurdity of the reasons given by the German leaders for retreating from the Marne and remark that the flurried and foolish attempts to disguise the disaster are the most significant and most welcome signals that the German leaders are not for political and other reasons, contemplate failure.

The Crown Prince is making his forces fight furiously between the Marne and Rheims and is ruthlessly sacrificing large rearguards to prevent a rout. It is suggested that General Ludendorff's arrogant under-valuation of the Allied offensive is an error due to his belief in the nonsense recently published in Germany about General Foch and his reserves.

Miss M. Woodbridge  
Corner Douglas and View Streets  
Phone 4099

With the American Army on the Aisne-Marne Front, July 21.—Via London, July 22.—South of Soissons American troops to-day advanced about eleven and a quarter miles. The artillery has found the range of the Soissons-Chateau Thierry railway, while American troops are astride the Soissons and the Villers-Cotterets railway. As a result there is only one railway line in the hands of the Germans south of a line drawn from Soissons to Rheims.

Northeast of Belleu, northwest of Chateau-Thierry, the Americans early to-day (Sunday) had made an advance of five kilometres. Some of the most terrific fighting since the offensive began occurred between Givry and Vaux, the Germans using artillery and machine guns.

Allied troops occupied Hill 204, commanding Chateau Thierry, at daylight to-day (Sunday), and soon afterward were progressing through the city itself. Progress east and north by French troops continued throughout the day (Sunday).

The Germans north of the Marne were subjected to a terrible pounding by the Allied artillery to-day. They responded heartily, though unsuccessfully. The Allied artillerymen were feeling out the German rear lines with telling effect, making the enemy's rear guard action costly.

**Supplies Cut Off.**

Prisoners captured near Chateau Thierry confirmed the soundness of Gen. Foch's plan when they declared a German retreat had become imperative owing to the decreased supplies. Stories of both ammunition and food becoming low were heard, and the officers had reported that it was practically impossible to resist. Orders had been issued, the prisoners added, to retreat to a point ten miles north, but the indications to-night were that the Germans would not for long be permitted to remain that close to the Marne, for the Allied flanking movement is progressing steadily. Both the railroads and the wagon roads over which the enormous stores for the German forces must pass are so menaced as to make them unusable.

Streams of prisoners were taken to the rear all day to-day (Sunday).

**Drove Germans Out.**

With the French Army in France, July 21.—(Via London, July 22.)—Chateau Thierry, the cornerstone of the line of the farthest German advance, fell early this morning when French troops occupied the city, driving the Germans before them.

The enemy began his retreat northward under heavy pressure from all sides, French, American and British troops participating in the thrust which is pushing him back. Where the retreat will end cannot be known, as everything now depends on the will of the Allied Commander-in-Chief.

The German position in the vicinity of Chateau Thierry was doomed from the moment their divisions retreated to the Marne. Franco-American forces carried out an encircling movement from the northwest at the same time, which made it absolutely necessary for the enemy to withdraw. In the course of the night reconnaissance were effected by the French to test the strength of the Germans still in the city, and shortly after dawn the Allied re-occupation became an accomplished fact.

**Pressed by Allies.**

London, July 22.—A report received here from the front in France last evening stated that German traffic at Peronne-Bardou was being vigorously and continuously shelled by Allied airmen. The situation was considered as being distinctly promising. The Germans apparently would have to do one of two things—clear the French off the railway west of Peronne-Tardenois, or bring back their troops from north of the Marne to flatten out the salient.

Further north the French had reached the high road from Soissons to Chateau Thierry near the village of Hartennes-et-Taux. The high road and the railway from Soissons to Chateau Thierry were well within range of the French guns along their whole length, and were being subjected to artillery fire.

The same applied to the junction of this road with the only possible alternative line, which comes from Peronne and joins it at Nanteuil Notre Dame. The latter place also was within gun range. The supply situation of the enemy was thus becoming more difficult each hour.

**Pounded by Guns.**

London, July 22.—Dealing with the fighting east of Chateau Thierry, along the Marne, a Reuters correspondent at French headquarters stated in a dispatch dated eight o'clock last night that eight German divisions which had reached the south bank of the river were able to cross the hills which overlook the Marne, having been able to recross would forget the terrible days they spent south of the stream. The ground they held was overlooked everywhere by the French and American artillery observers. Enclosed in a narrow space between the river and the hills, they offered a sure target for the Allied artillery.

For food and munitions the Germans were dependent upon the transport service across the Marne bridge, which was not only shelled by French and British airmen. They were unable to bring any artillery across, with the exception of mountain guns and light machine-throwners. The casualties of some units amounted to sixty per cent.

According to the correspondent, British troops participated in the battle for the first time on Saturday. They entered the line in the sector between Rheims and the Marne, in the region of the Ardre River, where Italian troops had been fighting heavily for some days. The British took their positions during the night and attacked immediately and with complete success, advancing over a mile.

**British Share in Fight.**

Paris, July 22.—That British forces are participating in the battle along the Marne front was revealed by the evening papers here yesterday, which, of course, were not allowed to give the number engaged or the details of the fighting.

The Temps said:

"Between the Marne and Rheims the Germans also have been vigorously attacked by French, British and Italian troops. In spite of the desperate resistance of the Germans, they have lost

ground in Courton Wood, the Ardre valley and near Ste. Euphrasie."

**Great Losses.**

Paris, July 22.—The smoke screen with which the Germans attempted to conceal their retreat across the Marne, which began on Friday, did not deceive the French. A terrific bombardment of shells and a rain of machine gun bullets was directed on the retreating Germans, who lost half of their effective strength, according to a dispatch from the Havas correspondent on the Marne front.

**LINE WAS POUNDED UNTIL IT GAVE WAY**

Breach in German Front Was Made Northwest of Chateau Thierry

London, July 22.—A dispatch received here yesterday afternoon dated on the American sector of the Marne front at 1 p. m., said that French and American troops had broken through the German line northwest of Chateau Thierry. The French and Americans, driving the spearhead toward the northeast, already then had advanced five kilometres (3.1 miles) at various places. The Allied troops took many prisoners, including three officers who said they were tired of the war. American infantrymen captured two German 77s.

Previous to the breaking of the German lines the Allies battled with the desperate machine gunners, who were mowed down as the Allied reinforcements arrived. The German losses were terrible.

**Began Saturday.**

The attack along the front from Chateau Thierry to Rheims began on Saturday. American forces captured Hill 193, north of Vaux, and continued to advance.

The German retreat across the Marne began on Friday under cover of a great smoke screen. At noon yesterday, when the dispatch was sent, great herds of Germans were continuing to move northward. Organized resistance had been met with by the Allies only at a few places.

The district south of the Marne and east of Chateau Thierry was entirely cleared of Germans. Two badly cut up German regiments were left south of the Marne in the German retreat.

Allied aviators bombed the bridges across the river, and their escape was impossible.

**Prisoners and Guns.**

All Saturday night the Allies hammered away at the widening wedge between the Germans and Paris as the Germans withdrew north of the Marne, the Allied troops continuing taking prisoners and guns.

Allied reinforcements are continuing to pour in to overcome any determined resistance the Germans may make.

The heavy artillery of the Allies continued yesterday the clearing of districts north of the Marne.

Indian scouts who were with Pershing in Mexico played a prominent part in the scout work along the river.

**German Statements.**

Berlin, July 21.—(Via London, July 22.)—An official statement issued here this (Sunday) evening said that on the battlefield between the Aisne and the Marne, after a successful defence by the German troops, attacks have been renewed and the fighting is going on. Southwest of Rheims attacks by the enemy also have failed, the statement adds.

An official statement issued earlier in the day said:

"A violent artillery duel on the Aisne was followed between Beaumont and Hamel by British infantry attacks, which we repulsed."

"Between the Aisne and the Marne the enemy yesterday sought by the employment of new divisions to bring about a decision in the battle. The enemy was repulsed, suffering heavy losses."

The French subject peoples, Algerians, Tunisians, Moroccans and Senegalese, were in the fighting and bore the main burden of the struggle. Senegalese battalions which were distributed among the French divisions, attacking tanks, stormed behind the tanks in advance of white Frenchmen.

**Two Days of Fighting.**

"Americans, including black Americans, and Englishmen and Italians, fought two days of fighting. The attacking strength of our troops again made itself fully felt. They had accustomed themselves to the enemy methods of attack, made without artillery preparation and based upon the massed employment of tanks, which at first caused them surprise."

"The fighting of yesterday ranks in achievements of leaders and troops and in its victorious results on a level with former great fighting successes

### HUNKA TIN.

You may talk about your virtues When you're sittin' round the quarters. But when it comes to getting blesses in, Let those heavy motors be, Pin your faith to Henry F's old Hunka Tin.

Give her essence and Teau, Crank her up and let her go, You back 'er in, spark plug foul in Hunka Tin. The paint is not so good, And no doubt you'll find the hood Will rattle like a boiler shop on trolley.

The cooler's sure to boil, And perhaps she's leaking oil, Then oftentimes the horn declines to toot.

But when the night is black, And there's blesses to take back, And they hardly give you time to take a smoke.

It's mighty good to feel, When you're sitting at the wheel, She'll be running when the bigger cars are broke.

Yes, Tin, Tin Tin, You exasperating puzzle, Hunka Tin, I've abused you and I've flayed you, But, by Henry Ford who made you, You are better than a Packard, Hunka Tin.  
—Bulletin of American Field Service, Paris.

### COMPLETELY BEATEN AT CHATEAU THIERRY

Germans Scampered Away, Declares Hutin in the Echo de Paris.

Paris, July 22.—Commenting on the German withdrawal on the Soissons-Chateau Thierry line, Marcel Hutin, in the Echo de Paris, remarks:

"The offensive continues ours: 'It needed all the reserves which promised victory to the German people,' he says, 'to attempt to stop the Allies' progress, which continues nevertheless. The enemy has been forced to resist to the last ounce.'"

"He was completely beaten at Chateau Thierry, from which he scampered off, permitting a methodical advance up to Sunday night of fifteen kilometres."

Several Franco-American units have crossed the Marne, M. Hutin adds, which presages that the river soon will be clear of Germans.

### RAID ON TONDERN

#### BRILLIANT EXPLOIT

British Aeroplanes, Launched From Warships, Made Attack on Zeppelin Sheds

London, July 22.—Concerning the official statement from Berlin Saturday announcing that three British aeroplanes had made an early morning attack on a zeppelin hangar at Tondern, Schleswig, but that no material damage had been done, the military authorities here consider the raid a brilliant exploit. They assert that it appears to have accomplished important results at a small cost. Two zeppelins are believed to have been in the sheds destroyed, since stormy weather prevailed in which zeppelins would not have ventured out. A large naval force was required for the operation.

#### Important Objective.

Copenhagen, July 21.—Via London, July 22.—The Politiken says that three British aeroplanes last Friday morning attacked the zeppelin sheds at Tondern, Schleswig, one of the most important German stations for air attacks on England. The machines took the direction of Tondern at about five o'clock in the morning and returned between six and seven o'clock at tremendous speed. Some German warships were seen off the coast at the same time. They fired on the British machines, which also were chased by German aeroplanes. The fight stopped at the Danish border.

The British planes passed over Danish territory, the paper adds, while the Germans took a course over the sea. One British machine landed near Framminge, and the airmen asked to be taken to Esbjerg, where he was interned in a hotel. Half an hour later another machine landed and the aviator was interned in the same hotel.

The British airmen are believed to have achieved important results, as a great ammunition dump near Tondern exploded. War ships, believed to be British and German, were seen off the west of Jutland all day. The British ships fired on German aeroplanes and one of the latter was seen floating in the sea off Suvenburg.

#### German Statement.

Copenhagen, July 21.—Via London, July 22.—An official statement received from Berlin says that three British aeroplanes made an early morning attack on the zeppelin hangar at Tondern. No material damage was done and no one was killed, the statement adds.

The raid was reported by the British Admiralty as follows:

"A detachment of the Grand Fleet operating off the Jutland Coast on the morning of Friday, July 19, has returned to its base, having carried out a bombing attack on the zeppelin sheds at Tondern, Schleswig, by Royal Air Force machines dispatched from the vessels."

"In the first flight, which was made in early morning, all the machines reached their objective and made direct hits on a large double shed which was completely destroyed."

"A second flight followed the first, all our machines but one reaching their objectives. A large shed was observed to have a hole of considerable dimensions in the roof, from which a volume of smoke was being emitted. A second shed was bombed and direct hits were made, but owing to the fierce anti-air-

craft fire and to the smoke from the first shed it was not possible to observe whether the destruction of the second shed was complete."

"The attacks were made from a height of 700 to 1,000 feet."

"Four of our machines failed to return, and information has been received that three of these machines landed in Danish territory. All the ships returned without any casualties."

### CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, July 22.—The following casualties have been announced:

#### Infantry.

Killed in action—Lieut. J. Leonard, M. C., Toronto.

Wounded—Lieut. B. C. Binks, England.

#### Engineers.

Wounded—Sapper G. A. Horn, Vancouver.

#### Artillery.

Classed—F. Lauson, Vancouver.

#### Railway Troops.

Wounded—Lieut. G. S. Ford, England.

#### Mounted Rifles.

Wounded—Lieut. G. Heyworth, Scotland.

#### Infantry.

Prisoner of war—Lieut. A. C. Dean, Chatham, Ont.

Prisoner repatriated—Lieut. Hugh W. Macdonell, Kingston.

Wounded—Pte. H. J. Lockwood, England.

#### Machine Guns.

Accidentally wounded—Corpl. J. Cullis, Taft, B. C.

Prisoner of war—Lieut. C. M. Mann, London, Ont.

#### Engineers.

Prisoners of war—Lieut. S. A. Hustwit, Toronto.

#### Cyclists.

Prisoner of war—Lieut. G. Mercer, Toronto.

#### Infantry.

Died of wounds—Pte. W. J. Turner, Edmonton, Alta.

Died—Pte. G. Brown, Paris, Ont.

Pte. J. McWilliam, Scotland; Pte. M. Thompson, Agincourt, Ont.

Wounded—Pte. S. J. Lennerton, Matland, N. S.; Pte. R. Lalonde, Alexandria, Ont.; Pte. J. J. Fallon, Pawtucket, R. I.; Sergt. F. A. Monaghan, Kenora, Ont.; Pte. W. Murray, Winnipeg, Ont.; Pte. R. E. Heald, England; Pte. W. A. Smith, England; Pte. G. Tobin, North Sydney, N. S.; Pte. E. W. Bradley, Edwards, Ont.; Pte. E. Lewton, England; Pte. A. E. Armstrong, Cornwall, Ont.; Pte. R. E. Foidelvin, Toronto, Ont.; Pte. A. Hill, Kansas, Sask.; Pte. D. B. O'Connor, New Zealand; Pte. N. H. Lane, London, Ont.

Gassed—Pte. F. J. Barnes, St. John's, Nfld.; Pte. B. E. Fulton, Chertville, Ont.; Pte. H. P. Callahan, Maple Green, N. B.; Pte. M. Ghetler, Montreal; Pte. A. Blackshaw, Montreal; Pte. W. E. Hawthorne, Edmonton, Alta.

Ill—Pte. W. Bryenton, Amherst, N. S.; Pte. W. A. Brown, Plattville, Ont.; Sergt. R. Laing, Winnipeg, Man.; Pte. F. Reblitt, England; Pte. W. H. Hanna, Eskine, Alta.; Pte. J. J. Scholan, Chateaux Terraces, Conn.; U. S. A.; Pte. T. S. Beatty, Hamilton, Ont.; Pte. J. A. Ware, Toronto, Ont.; Pte. E. Smith, Moncton, N. B.

#### Artillery.

Wounded—Gnr. H. G. McBoyle, Montreal; Gnr. G. A. Fleehing, Kingston, Ont.; Gnr. K. E. MacLachlan, P. Q.; Gnr. R. V. Taylor, Richmond, P. Q.; Gnr. H. Brown, Montreal; Gnr. G. B. Tandy, England; Gnr. F. R. Smith, Scotland; Gnr. R. H. Billinghurst, Toronto; Gnr. S. C. Purdy, St. John, N. B.; Gnr. M. D. Burch, Port Hope, Ont.; Gnr. F. Nutkins, England; Gnr. J. C. Shaw, Scotland; Gnr. P. Bardet, Lethbridge, Alta.; Gnr. W. McGuigan, Charlottetown, P. E. I.

#### Railway Troops.

Died—Pte. S. B. Hardy, Providence, R. I., U. S. A.

Ill—Pte. S. Morissette, Maniwaki, P. Q.

Wounded—Corpl. C. Reynolds, Staveland, Alta.

Gassed—Pte. E. Labrie, Durlingville, Alta.; Pte. A. R. Clarke, Saskatoon; Lance-Corpl. H. H. Rose, Mimico, Ont.; Pte. L. P. Duncan, Toronto.

#### SHE WASN'T ENGAGED.

Old Golroks's chauffeur had joined up, and he had decided that now he would enlist the services of a lady driver for his car. When the young lady appeared in answer to his advertisement, she was asked for a reference.

"Well, sir, I haven't one now, but I could get you one in a month or two," she said.

"Yes; but why the delay?" asked Golroks.

"It's like this, sir. My last employer is in the hospital at present!"

### HARDEN DECLARES

#### FOR FREE BELGIUM

German Editor Says Germany Has No Right to Even a Fragment

Amsterdam, July 22.—Maximilian Harden, in discussing in Die Zukunft the recent statement made by Chancellor von Hertling concerning Belgium, says:

"Can a country be regarded as an independent state which is to be returned to its owners only when negotiations with twenty other states have reached a favorable conclusion?"

"Can a country be regarded as independent which before its return must undertake to adapt its entire state life to the will of any enemy power still ruling its soil?"

"International law forbids Germany to retain even one pebble of a Belgian street."

"In Belgium, as a Chancellor, a State Secretary and an Ambassador have confessed, an innocent victim of German self-defence? Then we have to ask its forgiveness and not force conditions upon it. This is a question of the decency, morality and honor of a nation."

### ALLIED INTERVENTION IN SIBERIAN FIELD

#### Japanese Government Making Preparations; Press Forbidden to Report Movements

London, July 22.—The Japanese diplomatic council has agreed to the American proposal for joint intervention by Japan and the United States in Siberia, says a Central News dispatch from Tokyo under date of July 17. A proclamation will be issued assuring Russia that the Entente has no aggressive designs in intervening in Siberia, the dispatch adds.

It is probable that a relief commission will accompany the joint expedition, it is stated.

London, July 22.—A dispatch to The Times from Tokyo dated July 17 quotes a report that the Seiyu-Kai party is yielding and will accept the Government's proposals regarding intervention in Siberia. It is added that the Government has forbidden the press to report movements of troops and other material information.

A meeting of the Army and Navy and Finance Ministers was to be held July 18, to complete arrangements for financing and provisioning the Japanese forces.

A Peking dispatch of July 17 to The Times says that the character of the contemplated action at Vladivostok has caused lively satisfaction. The Allies, it is believed in Peking, cannot do better for the moment than to aid the Czechoslovaks by occupying Vladivostok and securing their base. Thus supported, the Czechoslovaks could proceed against the Bolsheviks, knowing that effective reinforcements would be available should the task prove difficult.

#### Horvath's Attitude.

London, July 22.—Gen. Horvath, recently proclaimed provisional ruler of Siberia, says a Daily Mail dispatch from Harbin dated last Thursday, has sent a dispatch to the Allied Ministers in Peking which disposes effectively of their fears. The Ministers had telegraphed him asking him to withdraw his proclamation on the ground that he intended to prevent the progress westward of the Czechoslovaks. The general now has assured the Ministers that far from offering obstacles, he wishes to come to an understanding with the Czechoslovaks.

Washington, July 22.—Most of the Red Guards who opposed the Czechoslovaks when the latter took control of the government at Vladivostok were Germans and Magyars, according to a message received from Prof. Masaryk, president of the Czechoslovak National Council.

The dispatch said that the Bolsheviks had surrendered control of the government to the Germans and Magyars, and that the Czechoslovaks decided for that reason and because of attacks on Czechoslovak forces elsewhere in Siberia to take charge of affairs at the seaport.

## STEFANSSON WILL DELIVER LECTURES

Plans to Open Tour in Aid of Red Cross at New York

Nome, July 22.—Vilhjalmur Stefansson, the Canadian Arctic explorer, now at Fort Yukon, Alaska, is planning to go on a lecture tour this fall for the benefit of the Red Cross, according to a telegram received from him. Stefansson is in a Fort Yukon hospital recovering from illness contracted at Herschel Island, in the Arctic, early this year. He hopes to come through Nome in August on his way to the outside world. Stefansson has not been outside since 1913, when he sailed from Victoria at the head of an expedition. The Polar Bear, Stefansson's schooner, is now on her way from Herschel Island to Nome with the records and equipment of the expedition. Stefansson plans to meet the schooner here and then sail aboard a passenger liner for Seattle. The Polar Bear will be taken to Victoria. If the explorer should meet the Polar Bear as planned and sail for the outside, the first lecture will be given at Carnegie Hall, New York, on October 6, the telegram says. In his lectures, it is understood, Stefansson will tell of his work and discoveries.

## DRIVING IN THE SALIENT.

The expulsion of the Germans from Chateau Thierry was the inevitable sequel to their retreat across the Marne, for with the changes of front that point became exposed to attack from three directions. American troops have also crossed the river, and both French and Americans have advanced considerably east of Chateau Thierry. Thus the southwest corner of the big salient has been driven in and the centre of the German battlefield narrowed by some miles. If the Franco-American troops between Soissons and the Marne and the French-British-Italians between Marne and Rheims continue to make progress, the enemy's big problem will be to withdraw that narrowing centre or, in other words, the head of the salient, to save it from being trapped.

Hence the Germans are throwing powerful reserves into the struggle on those two flanks, particularly just south of Soissons and southwest of Rheims. But even with this reinforcement they have not been able to prevent the Allies making headway. Between the Aisne and the Marne the French and American troops have reached points from eight to twelve miles beyond their original line, reoccupying nearly 300 square miles of the territory overrun by the Germans in their spring offensive over the Chemin des Dames and across the Aisne. They control either directly or indirectly all the railroads running out of Soissons, while their air forces have converted the whole area enclosed by the circular battlefield into an inferno into which von Ludendorff is compelled to feed reserves, including some belonging to Prince Rupprecht, intended for use against the British front, to avert a catastrophe. By this shrewd stroke Foch has brought the enemy near to the end of his offensive power and sealed the failure of the series of great operations which, all told, must have cost him nearly a million casualties.

While the advance of the Franco-American troops on the west side of the Aisne-Marne salient presents the greatest threat to the enemy, it will be noted in the various communications that the Allies' pressure between Rheims and the Marne has become stronger. British troops have joined the French and Italians southwest of Rheims and there the Allies have taken St. Euphrase, Bouilly, Courton Wood and Bois-de-Roi. Hence the enemy is being pressed back on three sides of the salient, the establishment of which, some weeks ago, occasioned so many grandiloquent announcements in Germany, including the declaration by General von Stein in the Prussian Diet that "Foch's central reserve no longer exists." The indications are that this entire salient will be driven in and from the experience von Ludendorff and his associates will learn a fresh lesson on the danger of salients in general, which will cause them no little apprehension over those they threw into Picardy and Flanders last spring. Even now the British are biting off pieces here and there, both in Flanders and between Arras and Albert, strongly suggestive of the moves of the Franco-American troops which were preliminary to the great counter-stroke now in progress. They have taken Meteren, west of Bailloul, and important positions near Buegnoy southwest of Arras.

The German War Office naturally is trying to represent recent developments as of minor importance and takes pains to claim that withdrawals have been carried out without being detected by the Allies. But even the German people cannot fail to appreciate the significance of the retreat across the Marne and the loss of Chateau Thierry, involving the abandonment of positions the capture of which, they were informed a few weeks ago, would help to ensure a victorious peace from the decisive blow. It must be apparent to them that Foch at his own time and place, with one stroke—and not his main stroke or anything like it—has taken the initiative from von Ludendorff and will keep it for good.

## FOR THE FIFTH TIME.

Premier von Seydler, of Austria, again has submitted his resignation and this time, according to reports from Vienna, he and his colleagues will be permitted to retire. As far as we can recall, it is von Seydler's fifth attempt to get from under the load which falls to the lot of an Austrian first minister these days, but on the other occasions the Emperor Karl has refused to release him.

A few days ago the Premier in commenting upon developments in the Reichsrath, following the re-opening of the session of that House, observed that the various elements appeared to be so much "attached" to their parties that it would be difficult to conduct business harmoniously. This, being interpreted, meant that the Czechs, Jugo-Slavs,

Italians and Transylvanians were so hopelessly irreconcilable that neither he nor anybody else could possibly improve the political situation. The political situation in Austria is not susceptible to any measures of improvement in the power of the Austrian Government simply because it is only a reflection of the war situation, and therefore can be bettered only by victory. The Austrian defeat on the Piave, therefore, must have made it worse, while the German disaster on the West Front is another circumstance which will contribute to the hopelessness of the Austro-Hungarian position.

## THE PUBLIC WILL APPROVE.

The announcement from Ottawa that the Government has agreed to accede to the demands of the letter-carriers will be received with general satisfaction, for beyond question the men of this service have the sympathy and support of the public in their agitation. The "war bonus" of \$100, granted last year, was more than wiped out by the increase in the cost of living almost as soon as it was received, and even the additional \$150 it is proposed to grant under the new agreement leaves no margin on the right side. The letter-carriers are a faithful, industrious body of men who should not have been forced to threaten a strike to obtain increased remuneration. It should have been sufficient merely to transmit a statement of their wages and a copy of The Labor Gazette showing the cost of the average family weekly budget in Canada to ensure immediate favorable action. In such cases the Government should not await for the imminence of a strike to do ample justice to its employees.

## WATCHFUL WAITING.

Even the Kaiser is not following the developments between the Aisne and the Marne more closely than one Ferdinand of Bulgaria, known as the Balkan Fox. Some weeks ago it dawned upon that crafty individual that, notwithstanding the German successes in the West, the outlook for his partners and particularly for Bulgaria was becoming less promising every week.

Turkey's insistence upon obtaining a part of Thrace which Bulgaria claims and the way the Central Empires have manipulated the settlement of the Dobrudja question were disturbing enough, but the defeat of Italy on the Piave and the economic situation in Bulgaria caused Ferdinand to wonder if it was not pretty nearly time to hedge somewhat.

He, thereupon, dismissed the pro-German Radislavoff ministry under whose aegis Bulgaria entered the war, and substituted for it a Cabinet headed by M. Malinoff, who is notoriously anti-German and in 1915 was imprisoned for opposing Bulgarian intervention on the German side.

The German defeat in the Aisne-Marne salient will give a further stimulus to Ferdinand's change of heart and it is just about time to expect from him some kind of an overture. His Throne or his life, and possibly both, depend upon averting disaster to Bulgaria, and just as soon as he is convinced that the game is up for his allies he will make all speed for the Entente's camp, not improbably choosing a quarrel with Turkey as the most promising route.

The loss of the U. S. cruiser San Diego, while regrettable, is not important in a military sense, unless it interrupts the movement of American troops across the ocean. This is unlikely. The largest number of American troops that ever crossed at one time left Atlantic ports while hostile submarines were operating off the Virginia Capes a few weeks ago. These convoys, of course, are repeatedly attacked and have been ever since the United States began to send troops to Europe.

One of the objections to action by the Allies in giving aid to Russia was that they had received no authoritative invitation on behalf of the Russian people. But the Russian people are inarticulate, and have been since the Constituent Assembly was dissolved by the Bolsheviks at the bayonet point because the members elected to that body were overwhelmingly anti-Bolshevik, although that same election had been authorized by the Bolsheviks themselves.

## GERMAN MONOPOLY TO GO.

(Ottawa Citizen.)

British and French publishing houses will issue guide books after the war for European countries, thus cutting in on Baedeker's monopoly. In fact when peace comes it will be hard for Germany to induce anyone to take her for a guide in anything.

## WHY NOT?

(Toronto Star.)

A way of accomplishing the desired end was found by the Government in dealing with the packers in limiting their profits to 11 per cent. on the capital invested. This was a thoroughgoing measure. It meant business and drove straight to the point. Having taken this course with the packers, why not cut across the same and deal with the flour millers in the same direct way?

## MAKING SURE OF HIS JOB.

(New York Herald.)

"You'll have to pardon me, gentlemen," the second lieutenant was saying to a group of officers in the United Service Club rooms of the McAlpin Hotel yesterday afternoon. The apology was being made after he had hurriedly left the officers to greet a private, who had stepped through the door a moment before. "You'll have to pardon me, gentlemen," he was saying upon returning, "but that was my boss out West when I joined the army. I may want a job again when the war's over. He owns one of the biggest investment houses in Missouri. I was his head bookkeeper."

## KEENNESS OF MEN FROM U. S. DESCRIBED

Even Wounded Soldiers Insist on Remaining on the Battlefield

London, July 22.—(Reuters' correspondent at French headquarters telegraphed last night:

"I spent yesterday (Saturday) on the bank of the Marne with the American troops. They were the officers and men of a battery of American 75's which had been in position on a bare exposed plateau above the river about a thousand yards from the Boche ridges during the entire week. The Americans were aroused by terrific artillery preparation on the part of the enemy on the night of July 14. The American battery was in the open, and of thirty enemy batteries which had been identified in the sector, five were concentrating on the American battery. The men had to turn out and open on the enemy without a moment's delay. They continued to fire as hard as they could for seventy hours.

"The Americans were under a heavy shelling themselves but they never relaxed their efforts. The whole plateau has been ploughed up by German shells. The Americans, who had never seen a serious action before, lost both men and horses, but the battery was never silenced.

### Telephones Cut.

"In the first hour of the bombardment every telephone wire in the sector was cut by German shells and the battery was left without means of communication with the American infantry, whom it had to support.

"A young lieutenant volunteered to restore the liaison. Taking a horse, he rode down to the river, through the German barrage and back, and during the night galloped sixteen times between the battery and the river, always under a terribly heavy fire. He had eight horses killed under him and on the last journey he himself was hit in the knees.

"A battery commander told me he had the greatest difficulty with his slightly wounded men. None of them wanted to leave the battlefield and men ordered to go away for treatment would hide themselves in order to avoid notice, hoping in this way to be able to remain with their comrades. One day the crew of which had been knocked out by a single big shell, was kept working by telephone men, who, realizing what had happened, dashed out of their shelter and began to man the gun themselves without orders."

## BIG RAID WAS MADE BY U. S. TROOPS AT POINT IN VOSGES

With the American Army in France, July 21. (Via London, July 22.)—(By the Associated Press.)—American troops in a raid into the German lines at a point in the Vosges on Friday inflicted 150 casualties on the enemy, and sustained virtually none themselves. The German prisoners declare they had been receiving bad food and poor ammunition.

Six officers and sixteen men have been commended in French and American orders for "conspicuous bravery in the execution of the raid in the Vosges."

Two hundred Americans, including thirty-two bandmen acting as stretcher-bearers, penetrated 300 yards into the German trenches, and inflicted the casualties. The raid occupied only forty-five minutes.

## ENGLISH GIRL IS REWARDED BY FRANCE FOR GREAT BRAVERY

Paris, July 22.—Upon a recommendation from General Foch, Premier Clemenceau has decorated Miss Fraser, an English ambulance driver, with the Cross of the Legion of Honor and the War Cross.

The citation reads: "Charged with the transportation of wounded men Thursday night under a heavy bombardment, she received two serious wounds from a torpedo which destroyed her ambulance. She had the superior courage to reach the station on foot and tell the doctors of the plight of the wounded men and then fell unconscious."

## VIOLENT STORMS IN FRANCE DO DAMAGE TO GROWING CROPS

Paris, July 22.—(Havas Agency.)—Violent storms in many districts in France have caused damage to the crops. The thermometer yesterday registered ninety-one degrees.

## ENEMY FORCED TO SHIFT MORE MEN

(Continued from page 1.)

Southwest of Rheims, there is a gap of about twenty-four miles. If the French, Italian and British troops southwest of Rheims make an advance of any importance, the position of the Germans farther back will be made even more critical than at present.

Enveloping Operations. There appear to be at least two, and perhaps three, enveloping operations along the western side of the salient south of Soissons. The first of these, evidenced by the breaking through the German line by the Allies northwest of Chateau Thierry forced the Germans back from the extreme tip of the salient.

The second enveloping movement is proceeding up the Ourcq valley and at last accounts was very near Quichey-le-Chateau. The third is the advance of the Allies south of Soissons. Thus Foch has projected tentacles eastward to catch the Germans retreating from the Marne. If another clash should be thrust out from the Rheims salient, the situation would become much more perilous for the enemy. There are indications that the reported advance of the Allies south of the Aisne below Soissons is simply the carrying out of the French strategic plan of keeping the Aisne on the French left flank. The actual occupation of Soissons would be a matter of slight

## Importance in comparison to the demoralization or capture of the German army to the southward, which appears to have been in General Foch's mind as a possibility when the smash on the German flank was begun by General Mangin on Thursday morning.

Chateau Thierry Sector. In the past twenty-four hours most progress has been made in the Chateau Thierry sector and the enemy has been driven back there about seven miles eastward from Belleau and four miles northward from the Marne at Chateau Thierry. Both the French and Americans have made notable progress in this region since the occupation of Chateau Thierry Sunday morning. There has been no announcement of any increase in the number of prisoners, though it is reported from the battlefield that many more have been captured. Four hundred machine guns and thirty cannon were found in the German positions south of the Marne.

## SOISSONS-CHATEAU THIERRY ROAD CROSSED BY FRENCH AND RAILWAY IS CUT BY AMERICANS

(Continued from page 1.)

Over 6,000 Captured. The text of the statement follows: "Headquarters American Expeditionary Force, July 21.—Section A—Between the Aisne and the Marne the day has brought fresh success to our troops. The enemy has been driven back and they have continued to force the enemy to yield bitterly contested positions. In the fighting of the past few days more than 6,000 prisoners, more than 100 cannon and many trench mortars and machine guns have been taken by our divisions. "Section B—There is nothing to report in this section."

Crossed Marne. London, July 22.—American troops yesterday crossed the River Marne between Charleville and Gland, east of Chateau Thierry, and captured the Wood of Barbillon, according to authoritative announcement made here today.

The Germans are stubbornly resisting the French crossing of the Marne, but the French have succeeded in getting two elements over at Mezy and Courcelles and those units are constructing footbridges under heavy fire. The Germans are using gas shells in large numbers. The object of the enemy counter-attack is to expedite the extrication of his troops from the pocket between Soissons and Rheims. Meanwhile the German troops at the southern end of the pocket must be experiencing great difficulty in getting supplies.

Southwest of Rheims. Southwest of Rheims there has been heavy fighting, and the French have made progress.

Between the Ourcq and the Marne the French yesterday took 400 prisoners. Owing to faulty working of the telegraph line between Paris and London, the news of the French advance up to 8.30 o'clock last night is not very detailed. It is learned, however, that the French line now runs from Breny along the main Chateau Thierry road to Recourt, and then through Le Chateau and Epieds to the Marne and Charleville.

Between the Aisne and the Marne the Allies' progress was more rapid. North of the Ourcq Allied troops crossed the Soissons-Chateau Thierry road at several points, but the Germans defending Soissons were most obstinate.

South of the Ourcq, where the enemy was pressed from the west to the south by the French who crossed the river, the rate of retreat was still more rapid.

Substantial Advance. London, July 22.—The capture of Barbillon Wood by American troops

## Real Porch Comfort

If You Use Aerolux Porches

Don't swelter on a sun-baked porch, or one that is closed in. You don't like it! Then why do it? Why not get comfort with Aerolux Porch Shades?

Aerolux Porch and Sun Parlor Shades solve the problem. They let in plenty of light and air but they exclude the direct rays of the sun—keep one cool.

There is a rustic charm both distinctive and appealing, whether viewed from outside or within.

Come in and see these on our second floor.

## Walnut Furniture

Walnut Furniture is growing more popular every day—for Parlor, Dining Room or Bedroom.

Just at present we are showing an exceptionally nice assortment of pieces for Parlor and Bedroom.

Some uncommonly attractive pieces are now on display, and we suggest that you come in and see these newest creations.

## Hammocks

Still time to use a hammock, and there is still a good assortment from which to choose—here. Stylish and strong Hammocks are offered at attractive prices. Come in and choose yours.

## Camp Chairs

Camp Stools and Camp Chairs are here for you, too. Folding Tables and Cooking Utensils suitable for this use, also. Try us for all these items.

means that the overseas men have advanced between three and four miles from their old positions on the Marne. Between the Ourcq and the Aisne the Germans again are making violent counter-attacks, but the French forces are maintaining their lines. Foot by foot the Germans are resisting desperately and are making violent counter-attacks. Nevertheless the French troops yesterday made progress along the river Marne to a maximum depth of eight miles.

Pressed Enemy Back. London, July 22.—(Via Reuters' Ottawa Agency.)—A dispatch from the French Headquarters last evening reported the fighting around Montmedy-de-Rheims as extraordinary bitter. Highland and North Country troops were sent into the battle yesterday and were heavily engaged to-day, pressing farther despite masses of German reinforcements. They captured Ste. Euphrase and Bouilly.

Teuton Admission. Geneva, July 20.—Americans are mentioned to-day for the first time by The Arbeiter Zeitung of Vienna. The newspaper states that the Americans have changed the situation for the

ente nations, not only in the political but in the military phases of the conflict. The newspaper says: "There is no further doubt that there are a million Americans in France. The genius of American organization has obtained stupendous results. Germany finds herself faced by three powers whose combined population is three times greater than hers."

To the Editor.—In reference to your article in to-day's issue on "The Champion Fire Waster," I think it well to say that in England all chimneys have to be built with not less than a brick and a half thickness, whereas here in Victoria the thickness is only half a brick. The wonder to me is that there are not more fires.

R. F. MOORE.

July 19, 1918.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, July 22, 1893.

An enthusiastic and representative gathering was held last evening to commemorate the centenary of Sir Alexander Mackenzie and it was decided to present a portrait to the Government.

Company 4, B.C. B.G.A., in camp at Macaulay Point, gave a concert and reception to visiting friends last night. The camping grounds were gallily decorated with bunting and flags and illuminated with Chinese lanterns.

### SAVING REGULATIONS MUST BE OBSERVED

Sugar Rules Become More Stringent Under New Food Order

Further restrictions have been placed by the Canada Food Board on the use of sugar by the manufacturers of soft drinks, fountain fruits or syrups, jelly powders, etc., and by proprietors of soda fountains and ice cream parlors. The order, which was signed this morning, requires that, on and after August 1, all manufacturers who use sugar in making any of their products whatsoever must be licensed by the Canada Food Board. On and after July 15 every manufacturer of beers, ales, soft drinks, fountain fruits or syrups, dessert or jelly powders or marshmallow powders and every proprietor of a soda fountain or ice cream parlor is limited in his use of sugar during each of the months of July, August and September, 1918, to seventy-five per cent. of the average monthly amount of sugar used by him during 1917.

Retail grocers are forbidden to sell sugar to any manufacturer unless the latter has obtained a special permit to purchase sugar from retail grocers. Use Fresh Fruits. The order contains a clause to the effect that proprietors of soda fountains are requested to use fresh fruits in season, whenever possible. Canners who have not heretofore made soda fountain fruits and fruit juices for soda fountain use are prohibited from doing so. Canners who have been making such products are required to file sworn statements of the amount of sugar used for this purpose during July, August and September, 1917, and during July, August and September of this year they must not use, in making such fruits, more than fifty per cent. of the sugar so used during the corresponding months last year.

No Icing Sugar. As the use of sugar for icing cakes or biscuits has been prohibited, the Order makes illegal, unless under special permit, the manufacture for sale of icing sugar, icing powders, or preparation of sugar which is used largely for this purpose. No license for the manufacture of candy, chocolate products, beers, ales or soft drinks, fountain syrups, marshmallow powders or dessert or jelly powders, in which sugar is used, will be issued to any person who was not engaged in such manufacture before and up to May 1, 1918.

The expressions "sugar" and "cane sugar" are defined in the Order. (The definition is applicable to all other Orders of the Canada Food Board) as meaning "sugar" whether in the raw, semi-refined or refined state, made from sugar cane, sugar beets or palm. Use of (invert sugar) or any like product, containing more than ten per cent. of cane sugar, as a substitute for sugar is prohibited. No sugar can be used in making popcorn products, but refiners' syrup may be employed as a substitute. The Order was effective on July 15, and violation of any of its provisions is punishable by a fine of from \$100 to \$1,000, imprisonment for up to three months, or both fine and imprisonment.

#### RETURNED HOME

Rev. Joseph McCoy Attended Meeting of General Assembly and Will Report.

Rev. Joseph McCoy returned this morning from a rather prolonged visit to Ontario. He attended the General Assembly of the Presbyterian Church and will report to the local Presbytery on the forward movement which has been decided upon. This movement aroused a great deal of enthusiasm in the Assembly and as a result it is expected that there will be renewed activity in Presbyterian Church circles here and elsewhere. While in the East Mr. McCoy visited many relatives and old-time friends.

With the high cost of living even the shoemaker can't always keep body and sole together.

### FILLING A BLANK IN TOURIST TRAVEL

In Absence of a Continent-Encircling Americans Summer Season is Quiet

There is rather an air of pessimism in the circles interested in catering for the better class of tourist travel here at this time. It is due to the restrictions placed on railway travel in the United States, which has cut off the wealthy and educated traveller from the Eastern United States. This traffic has hitherto been in full swing by the middle of July continuing for about eight weeks. The average citizen professes to be indifferent whether the community gets tourist business or not, but when there is a falling off in this travel, it radiates disappointment to a class of citizens who indirectly profit by their coming.

A Times representative was told last week by a man with extensive eastern connections that hundreds of American tourists in the Eastern States wanted to come out to Alaska and the Yukon this summer, but had been deterred by the handicaps put in their way through transportation. That loss of business is a dead loss to this community, and it arises from conditions over which the local authorities have no control.

The silver lining to this cloud is the Oriental travel, and the arrival of a large number of prairie citizens. Summer travel from the prairies helps to fill a vacancy left by the absent American.

The tourist business in Victoria is too firmly established to be discouraged by any temporary set back of this kind. If the average citizen only knew how many tourists became permanent residents, and thereby helped to pay taxes, criticism of publicity efforts would not be heard so often in this city.

**DORFNER MAKES NEW RECORD.** Oakland, Cal., July 22.—Miss Olga Dorfner, of Philadelphia, holder of the American woman's swimming records for the fifty-yard and 100-yard dash, today established a new American record here by swimming 100 yards in 1:06.2-5 in an out-door tank. The new record clips three-fifths of a second from Miss Dorfner's former record and is within two-fifths of a second of the woman's world record, held by Miss Fannie Durack, of Australia.

"The next person who interrupts the proceedings," said the judge, sternly, "will be expelled from the court-room and ordered home."

"Hooray!" cried the prisoner.

### BRINGING HOME THE RAILS

Premier Oliver, Dr. Tolmie and Mayor Todd exemplify the "fetch-and-carry" system, popularized by local Groceries.

### IF YOU WANT YOUR MAIL YOU MUST GO DOWN TOWN FOR IT

Between 9 and 12 and Between 2 and 8; Carrier Service Late

### ALL DEPENDS NOW UPON ACTION OF THE CLERKS

For the time being Victoria Post Office shows unusual activity and every telephone in the building has done full service since an early hour this morning. As soon as the customary time for street delivery had passed, Postmaster Bishop became besieged by inquiries by telephone and in person as to the procedure to follow to procure one's mail. Within two or three hours all arrangements were complete as far as the inside office staff was concerned and the sorting of Saturday afternoon's, Sunday's and this morning's mail was tackled.

**Fetch and Carry.** Present arrangements will permit of delivery through the General Delivery wickets to all those who are not in possession of private boxes. Application for mail must be made between the hours of 2 p.m. and 8 p.m., and between 9 a.m. and 12 noon. One carrier had been secured up till noon today, and his route will be confined to the business section of the city. As soon as other help is secured the local office intends to institute a complete delivery service, "new blood" so far engaged has been allocated to sorting indoors.

**Not Many Soldier Cheques.** The suggestion abroad that a great number of cheques for soldiers' dependents were lying unsorted, and in consequence unavailable, was contradicted by Postmaster Bishop this morning with the statement that all had been sorted and that a number had already been delivered through the wicket. As a matter of fact, he said, the week-end mail of cheques from Ottawa had been a particularly light one. Those valuable communications, in common with others, may be obtained on application between the hours above designated.

**Clerks Next?** So far as can be gathered there is very little likelihood of the strike spreading to the clerks unless the struggle assumes a protracted nature, when to force the issue a sympathetic walkout may be looked for. At the

moment instructions have been received from the Dominion Executive of the Postal Clerks' organization calling upon its membership to refrain from taking any action calculated to extend the tie-up. So long as the clerks remain there will be but a temporary dislocation caused by the absence of the carriers, messengers and porters, since the authorities here consider it possible to engage some forty odd men to substitute until the Dominion Government concedes the demands of the regular men.

**No Outgoing Delay.** Many anxious inquirers were possessed of the idea that outgoing mail posted during the week-end would still be languishing at the local office. Postmaster Bishop stated definitely to a representative of The Times this morning that no delay whatsoever would be occasioned in connection with outgoing mail.

### VICTORIA POSTMEN ON STRIKE TO-DAY

(Continued from page 1.)

**Clerks May Join.** It is understood that the Mail Clerks of Winnipeg will throw in their lot with the letter-carriers to-morrow morning unless in the meantime the Board of Conciliation comes into being. Local clerks have signified their intention to leave all work outside their own particular sphere severely alone, so that no letters addressed to house and street addresses will be handled by the staff of clerks. Letters addressed to General Delivery and to private boxes will be dealt with in the ordinary way until such time as the clerks hold off from a sympathetic strike; that may follow at any moment unless there is some sign of a more conciliatory attitude from the Dominion Government, either by the immediate appointment of a Board of Conciliation or by the granting of the men's demands.

As far as the local situation is concerned it should be understood that fifty-five per cent. of the men affected are returned soldiers working under what is known as the "unappointed" plan. That is to say until a man is "appointed" he remains under the temporary or minimum scale of \$2.50 per day, less five per cent. contribution to the employees' retirement fund.

**All Quit Work.** Secretary Holdridge, of the local Letter-Carriers' Association this morning received the following wire from Secretary McKee, of the Federal Association, Toronto: "Every carrier, porter and temporary decided to quit work and are now out and will stay until Government decides to grant demands made in resolution of July 12th."

**Toronto Mayor's Appeal.** Telegraphic advices reaching the local executive from Toronto indicate that the Mayor of that city has appealed to the Postmaster-General to meet the men's demands. His Worship also addressed himself to the men, asking them to agree to a ten days' truce. Neither the Minister nor the men "heard" the appeal and the walkout continues complete.

For the purpose of further discussing the situation and of affording the general public an opportunity to post themselves on the merits of the case, a public meeting has been called by the local Letter-Carriers' Association for to-morrow, Tuesday, night in the Knights of Pythias Hall. In the event of the Dominion Government relenting in the meantime the event will automatically call itself off and the mails will be delivered as usual.

**At Vancouver.** Vancouver, July 22.—Following out instructions from their headquarters at Toronto, the Federated Association of Letter Carriers called a strike at 7 o'clock this morning and this city is without mail delivery to-day. Approximately 150 letter carriers left their routes and the only method of securing mail is by calling at the post office. The strike will be of indefinite duration, wholly dependent upon instructions from Toronto.

This morning the 7:30 shift, which serves the business district, put out some mail, but this was before the carriers on that shift had been notified of the strike. These men were soon called in.

**At Toronto.** Toronto, July 22.—Up to 10 o'clock this morning there had been no delivery of mail in Toronto. None of the carriers are on duty and it is reported the sorters also have quit work.

**At Winnipeg.** Winnipeg, July 22.—The Winnipeg letter-carriers went on strike at 6 o'clock this morning. More than 300 postmen are idle here and will continue to strike until some settlement is made.

**Advisory Board Meets.**—The Advisory Board to the Women's Institutes met at the Parliament Buildings this morning with President Mrs. Blackwood-Wileman in the chair. The meeting conferred with Hon. E. D. Barrow, Minister of Agriculture, when matters of importance pertaining to the Institutes was discussed, and various recommendations sent in from Institutes throughout the province received careful consideration. Mrs. Johnson, of Nelson, the oldest member of the Board, tendered her resignation on account of her husband's serious illness, the resignation being accepted with much regret, her assistance during her long association with the Board having been found invaluable.

### "WAR AND DISEASE"

By Lieutenant R. S. M. Sturges,  
Author of "On the Remainder of Our Front."

To say that in war the microbe is more deadly than the bullet is a truism, a platitude which will not bear repetition. The conditions of active service are ideal for the propagation of every kind of disease—in its most virulent form. Large numbers of men are collected together in confined spaces; all kinds of hygienic and sanitary accommodations are necessarily of an improvised nature; microbes find a fertile breeding ground, and men exhausted, wet and cold have not the power to resist their attacks. In fact in war the microbe is the most dangerous enemy; the one is human and fights openly, the other is the microbe which attacks insidiously and in secret. Of these latter is the more dangerous, in that its defeat is essential to victory over the former.

It is only necessary to turn back the pages of history to see how the defeat of an army may be brought about by disease. It was the great plague at Athens, to take a classic example, which delivered the Athenian Empire into the hands of Sparta; again in more modern times the invasion of Russia by Napoleon the great was mainly defeated by spotted typhus. A few figures will serve to show how much more dangerous to an army disease has been in the past than the efforts of the enemy. In the Napoleonic wars Wellington lost ten times as many men from disease as from wounds received in battle; during one campaign, for instance, more men died of sickness than had perished from all causes during the previous summer campaign.

In the Crimean war, out of an army which averaged 111,000 strong, the British losses from disease were 21,000 as against 4,055 killed in action.

The Federal troops in the United States Civil War of 1861, lost 186,216 from disease and 95,949 from wounds, while in the Spanish-American War of 1898, in which the deaths from wounds were only 293, the deaths from disease numbered 2,081. But the record in this respect was reached by the French expedition to Madagascar three years earlier, in which only seven men died on the battlefield, whereas disease accounted for no less than 5,600.

Minor British campaigns in various outlandish places have produced figures almost as bad. I will give but one instance in Afghanistan between 1880 and 1882, 1,122 British troops died of disease and only 161 from wounds, and while the number of troops admitted to hospital during that time was nearly three times as great as the average strength at any one time of the British forces engaged in that campaign.

The statistics of the South African War are more interesting, as being of more recent date and the product of a much larger campaign. In South Africa between 1899 and 1902 the average strength of the British army was 208,328; the number admitted to hospital for wounds was 21,292, as against 494,132 admitted for disease. 14,624 deaths due to disease, and 14,624 were caused by sickness and only 6,945 by wounds received in action.

It will be seen, therefore, that prior to the present war, the death rate

from disease was never less than double that caused by weapons of war.

Now to turn to the situation of the present war so far as it concerns the British troops. It has been calculated that in this war, for every ten men killed in action, only one man has died of disease! This amazing revolution has been brought about by the tremendous advance that has been made in sanitation, hygiene and the like; an advance, which is directly attributable to the war. The war has brought these matters to the front and has directed to them the attention of the greatest brains of the day. The result is truly remarkable.

But that is not all. The war has also been the cause of a great advance in the science of surgery, which has enabled thousands of lives to be saved. A realization of these facts throws a new light on to the nature of modern war. War is always considered as a dealer of death, never as a saviour of life; it is credited with the introduction of mankind into a state of destruction, never with the discovery of means to preservation. In face of the long casualty lists, the great progress that is being made in the saving of human lives is forgotten; but it deserves recognition. Modern war has developed the art of killing it is true; the number of deaths inflicted in action in this war in proportion to the number of troops engaged is greater than ever it has been before. But the art of healing and of preventing disease has developed far more than the art of killing. The death rate from disease has been reduced beyond all knowledge, so that in spite of the increased death rate from wounds, in spite of the long casualty lists, in spite of the engines of

death, which increase in number and in power from day to day, the net death rate in this war in proportion to the numbers engaged is the lowest ever recorded. At the beginning of this year it was calculated that the death rate from all causes in the British army since the beginning of the war is but 3 per cent. per annum of the British forces serving with the colors in all parts of the world.

At the beginning of this article I said that to refer to the microbe as deadlier than the bullet in war was a truism; I was wrong. Of other times and of other places it is true enough no doubt, but on the British front to-day it has been proved to be entirely and completely false.

#### BRIDGING THE SUEZ CANAL.

An announcement has appeared in the newspapers so insignificant that it has almost passed unheeded. The size of the item was altogether out of proportion to its importance. The single paragraph was to the effect that the swinging bridge over the Suez Canal at El Kantara, about thirty-five miles south of Port Said, had been completed. Yet that bridge affords direct railway communication between Cairo and the cities of Palestine; it connects the desert which separated Egypt from Palestine and which has for centuries barred the march of nations; it joins Asia to Africa; and it assures the world that the Holy Land will henceforth be under Christian guardianship. Xerxes bridging the Hellespont is nothing to the British bridging the Suez Canal! Surely the bells of all Christendom ought to have been rung when that insignificant announcement crept into the corners of the papers!—Christian Science Monitor.

"If the patients were deprived of tobacco," reported Dr. Myles to the committee of the Baltimore Lunatic Asylum, "they would go mad."

The observation evoked laughter and the doctor added: "I mean real mad."

## Bringing You 15 Extra Leisure Hours

### Time For That Little Excursion

"SOMEWHERE a voice is calling"; somewhere it says: "Quit baking; have the 4-X Bread Man call on you; pack your lunch basket with sandwiches, and spend the 15 hours it takes to turn a 50-lb. sack of flour into bread in a pleasure jaunt with the kiddies."

AND why shouldn't you use Shelly's 4-X Victory Bread? Because of the use of specially adapted, scientific machinery, the utmost elasticity of texture and firmness of grain is secured with war flour; while the richness of other ingredients makes it "without compare" in Western Canada.

## RUPERT EXCITED OVER SHIPBUILDING DEAL

Everything Settled for Work to Proceed in Immediate Future

President Mullen, of the Mullen Construction Company, of Pittsburgh, arrived in Vancouver last night after concluding the details of the agreement between his firm and the Grand Trunk Pacific Railway Company for the lease of the shipbuilding plant at Prince Rupert. He was accompanied by the chief engineer of the company. Just as soon as the arrangement for the importation of the steel plates has been approved by the United States Government Mr. Mullen will return and the work of construction of five steel ships will commence.

The three million dollar dry dock and shipbuilding plant at Prince Rupert has been lying almost idle for several years. A few coasting steamers have been hauled out and repaired and several war vessels have been overhauled there, but owing to the lack of mechanics to undertake the work it has been found impossible to undertake any large contracts. With the arrival of skilled men repair work will be undertaken at the dock.

Naturally the people of Prince Rupert are very excited over the prospect of the shipyard opening and already preparations are being made to build houses to accommodate the increased population. The new contractors state that they do not expect any difficulty in finding men. The foremen and many of the skilled mechanics will come from Pittsburgh.

President Kelly, Vice-President Hinton and a number of other officials of the Grand Trunk Pacific were in Prince Rupert all last week in connection with the deal and the outcome is considered very satisfactory to all concerned.

The time used in Pacific Standard, for the 120th Meridian west, is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning. The height is in feet and tenths of a foot, above the average level of lower low water.

Equivalents—To find the depth of water on the all of the dry dock at any tide, add 18 feet to the height of high water as above given.

### YUKON SALMON RUN

TEN DAYS OVERDUE

Dawson, July 21.—The salmon run, now ten days overdue, is causing anxiety here as the basin of the upper Yukon depends largely on this fish for its winter food supply. A large fleet of fishermen has been ready for the season's operations for nearly a month. It is feared that the non-arrival of the fish is due to the operations of a new cannery at Andreafsky, in American territory on the lower Yukon. The new cannery is reported to be using wheels to snare fish.

The Yukon river is black with vast flocks of duck in flight from the north. This is two months ahead of the usual time.

## UNION CAULKERS RETURN TO WORK

Lloyd's Surveyor Claims He Was Misquoted in Report of Official Adjuster

Having accepted the award of W. L. Macdonald, official adjuster of shipyard disputes, the striking caulkers are all back at work to-day and the ring of the mallet is again in evidence at the shipyards.

The adjuster's decision, which was published in full in Saturday's issue of The Times, was that no caulkers be employed in the shipyards without first passing the required examination of the examining boards.

**Surveyors' Correction.**

The report quoted W. J. Stephens, Lloyd's surveyor, as stating that the men objected to the union were not competent caulkers, he having found it necessary to go over certain portions of their work a second time, but Mr. Stephens, in a signed document submitted this morning to R. P. Butchart, director of shipbuilding, sets out that he was misunderstood.

Mr. Stephens' letter of explanation follows:

"I note with regret the statement in the local papers covering the caulkers' strike at the Cameron-Genoa and Foundation Company's yards, and also the Assembly plant. I wish to be frank and say that I did not make a statement to the effect that the school men were incompetent, but did say that owing to these men being new to me, I asked the foremen to have the deck work double hauled. For your information, I wish to state that double hauling is practiced in a great many places and does not mean that work is improperly done, as Mr. Macdonald, the adjuster, states in his report to the press.

**Was Misconstrued.**

Mr. Macdonald misconstrued, no doubt, my statement. It has been the practice in local yards to have apprentices and their work inspected by a union, the union claims that in charge of these apprentices the work is done satisfactorily. I wish to state that a competent man was also in charge of the school caulkers. At the same time I wish to state that I had some of this work tested by the regular caulkers to satisfy both parties that the work had been done properly. Referring again to the newspaper article, I wish to say that I did state to Mr. Macdonald that the work of the union men was of the highest possible standard.

"This, I think, should clear up this matter to the satisfaction of all persons, as I am at all times as fair as possible with all the men, both union and non-union, and desire only to obtain first-class workmanship. I met Mr. Macdonald for the first time on the street, and was in conversation with him for about five minutes re the caulkers' situation. He was in the time, in company with Mr. Sewell, business agent of the caulkers' union."

### WIRELESS REPORTS

July 22, 8 a.m.  
Cape Lazo—Clear; calm; 29.56; 55; sea smooth. Spoke str. Princess Alice, 12.15 a.m., Seymour Narrows, southbound.

Pachena—Cloudy; S.E. light; 29.72; 57; light swell.

Ikeda Bay—Overcast; N.W. fresh; 29.80; 57; sea rough.

Prince Rupert—Overcast; E. E. light; 29.87; 58; sea smooth. Passed str. Prince Rupert, 11 a.m., southbound.

### WAR SONGHEE MADE SATISFACTORY SHOWING ON HER TRIAL TRIP

The wooden steamship War Songhee made a very satisfactory showing during her trials on Saturday. Steaming over the measured mile at Barry Bay the vessel averaged about eleven knots and subsequently was given an extended test steaming for three consecutive hours. All those who took the trip on the War Songhee expressed themselves as particularly well satisfied with the outcome of the trials. Late in the day the new craft returned to the Ogden Point assembly plant.

## BIG JAPANESE LINER DUE HERE

**S. S. KASHIMA MARU.**  
Latest wireless reports from the N.Y.K. liner Kashima Maru state that she will reach port to-night from the Orient. It is not yet known whether she will reach quarantine in time to secure pratique. For Victoria the Kashima Maru has 153 passengers and 1,412 tons of cargo.

## PRINCE GEORGE WAS HELD AT THIS PORT

Owing to Delays G. T. P. Steamship Turned Around and Steamed for Skagway

Heavy freights and the strike at Anxox are the reasons given for the slight dislocation of the G. T. P. steamship service. The steamship Prince George, Capt. D. Donald, which arrived here this morning from the North was about thirty hours behind schedule and as a result of the delay it was necessary to cancel the trip to Seattle.

On the northbound trip to Prince Rupert and Anxox minor boiler trouble handicapped the speed of the Prince George and she was a few hours late in making the northern terminal. On her previous voyage the George was held at Vancouver for the purpose of having some electrical welding done to one of her boilers. The boilers are now giving all the steam required and no further delay in this respect is anticipated.

The Prince George, after an unusually lengthy stop-over of seven hours, left at 3.15 p.m. for Prince Rupert and Skagway. The Seattle passengers came over on the C. P. B. boat and boarded the G. T. P. steamship at this port. Travel North is good according to the company officials. When the Prince George gets away from Vancouver at 11 o'clock to-night for Alaska most of her accommodation will be taken up.

The steamship Prince Rupert, Capt. Duncan McKenzie, is posted to reach here to-morrow night from Skagway.

## SPIRIT IN STATES LEFT ITS IMPRESSION

London Editor, Who Has Been Touring With Chas. Schwab, Pays Visit Here

C. Maughan, of The London Times, who came out to the United States and Canada at the suggestion of the Ministry of Shipping to look over the shipbuilding operations on this continent with the object of writing a series of articles dealing with the great effort that is being put forth on this side of the Atlantic to build up a fleet of ships, yesterday from Seattle and spent this forenoon in visiting the shipbuilding plants here.

He is accompanied by F. W. Collins, chief surveyor for Lloyd's in the Northwest district with headquarters at Seattle. In conversation with a Times reporter, Mr. Maughan waxed enthusiastic over the tremendous effort that is apparent on both seaboard of the United States in turning out tonnage for the Allies. He traveled across the continent with Charles Schwab, director-general of shipbuilding, and was deeply impressed with the extent of the shipbuilding operations on the Pacific coast of the United States.

"The spirit of co-operation is wonderful," remarked Mr. Maughan touching upon the harmonious relations between capital and labor, "and they are certainly delivering the ships at a rapid rate."

Considering that many of the yards on the Pacific coast are new, Mr. Maughan is of the opinion that on the whole they compare very favorably with the shipbuilding plants of the United Kingdom.

He evidenced considerable interest in the wooden shipbuilding operations in Victoria and expressed great surprise that shipways should be vacant at local plants at a time when there is such a demand for tonnage.

Johnson had been dining out with some friends. When he left to go home he found himself in a very thick fog. Stumbling along a narrow pathway, he found himself descending a flight of steps. This he felt sure was not right, and hearing footsteps ascending, he paused.

"Pardon me," he said to the dim figure which presently loomed through the fog, "but can you tell me where I am going to?"

"Certainly, sir," replied the stranger, politely. "If you go straight on you will walk into the river! I have just come out!"

A man entered a restaurant and ordered a chicken. The chicken was evidently tough, for when the waiter came in he beheld the diner in a great state of wrath.

"Waiter," he said, "this chicken is very tough."

"Very sorry, sir." That chicken was always a peculiar bird. Why, when we came to kill it we couldn't catch it, so at last we had to shoot it. It flew on the house, and—

"Ah! that accounts for it, you must have shot the weathercock by mistake."

## SHIP OUTFITTED IN FIFTEEN DAYS

Skinner & Eddy Corporation Congratulated by Schwab on Delivery of West Gambo

Seattle, July 22.—Saturday was another proud day for David Rodgers and the Skinner & Eddy Shipbuilding Corporation, for while they did not smash their previous record in the accomplishment, they delivered to the Emergency Fleet Corporation the first of the monster Fourth-of-July fleet launched by the various plants throughout the United States.

The vessel was the steamship West Gambo, the first of the two ships sent into the water by Rodgers and his men on the nation's natal day, and the event marked the completion of the vessel the last minute detail just fifteen days after she had been placed in the water.

Already the Skinner & Eddy plant held and still holds the record for commissioning a big steel vessel following its launching, for this firm put the steamship West Liango in commission twelve days after she had slipped down the ways, or sixty-seven working days following the laying of her keel, a completed ship record which still remains unchallenged for a ship of her size in American shipbuilding annals.

**Fifteen Days for Outfitting.**

The West Gambo required fifty-six days from her keel laying to launching, and the additional fifteen days to commissioning places her in the ranks of the most speedily delivered vessels in the country, when informed of the feat prior to their departure for the East, Charles M. Schwab and Chas. A. Piez reiterated much of the praise they had already extended. Seattle's premier shipyard, Schwab at once sent a congratulatory message to Dave Rodgers and his men, which he followed with another to D. E. Skinner, president of the plant, the message of which is "Do things, and do them quickly."

The West Gambo, during her trials, registered an average speed of twelve and a half knots, and met every requirement.

Kaiser to make friends abroad in order to betray them. He was, as Admiral Dewey described him, "capable." He acquired the English and French languages perfectly. He courted society in foreign capitals and won confidences. He was described as a person "hard as nails, entirely impervious to any general humanitarian or altruistic ideas," one who in all international matters was a barbarian. "The possibility of war was never out of his thought," said a writer who described him as he was eighteen years ago. "When I spoke to him of the horror of such a way of settling disputes among civilized beings, I was met by a look of utter lack of comprehension. He thought that it might one day be his duty to bring war to the people he had visited gave him no pain. It seemed to him the right and only thing."

Von Hintze, who before becoming a diplomatist had attained the rank of admiral in the navy, played his favorite role of intriguer both in China and in Mexico. In China his conduct became so notoriously reprehensible that he had to be recalled. It was openly alleged that he was the associate of robber bands and spies. In Mexico he laid the groundwork of the conspiracy which later brought Zimmerman and von Gernstorff into disgrace and ridicule and hastened the entrance of the United States into the war. It was von Hintze who hatched the plot for international intervention in Mexican affairs, and who made it possible for the Berlin Foreign Office that all former Mexican territory could be taken from the United States. He had to leave both China and Mexico under a false name and in disguise. After his untimely diplomatic exploits in those countries he sought

## STILL LEARNING

Leader of the Opposition Will Continue His Exploration of British Columbia.

Continuing his plans of personal investigation as Leader of the Opposition, W. J. Bowser, K. C., will leave the city tomorrow for the northern section of the Island, visiting Cumberland, Comox, Courtenay, Campbell River and other points.

He will study the general conditions of the various communities and will leave his research with a little sport with rod and line.

**Want More Pay.**—The delivery men employed by one of the biggest bakeries in the city are asking for an increase in wages to \$4 a day. While there is at present no threat of a strike it is possible that the matter may end up that way in case the request is not met to the satisfaction of the men. It is also stated that all the bakeries in the city may be confronted with the same situation.

**In Memory of Geologists.**—The recent issue of The Canadian Gazette contains notice of the naming of two mountains after the late Dr. C. W. Drysdale, of the Geological Survey, and J. W. Gray, who were accidentally drowned in Kootenay River in July last year. Mount Drysdale is at the north of Wolverine Pass, in the Kootenay district, and Mount Gray overlooks Wolverine Pass from the southeast.

**Patriotic Aid Donations.**—Among recent subscriptions received by the Victoria Patriotic Aid Society are the following: Staff of Union Bank, \$15; Employees, E. & N. Railway Company, \$20.14; Employees of Victoria Phoenix Brewing Company, \$16.60; Staff of Messrs. Gordon Drysdale, \$16; Employees of The Times, \$27.50; officers and crew of C. G. S. Newington, \$15.15; Messrs. J. Sommer & Sons, Ltd., \$19; Employees, D. Spencer, Ltd., \$42.50; Employees, Cameron Lumber Co., Ltd., C. P. S. Plant, \$16.50; Employees of the Foundation Co. of B. C., Ltd., \$17.75; Employees, C. P. R. Express Hotel, \$15.00.

**Absent Without Leave.**—William John Jones, who appeared before the Court this morning before Magistrate Jay, and pleaded guilty to a charge of absenting himself without leave from the Canadian Expeditionary Forces. The case was remanded until tomorrow in order that the military authorities may look up certain circumstances connected with the charge. It was stated that Jones had been previously sentenced to twelve months by the Magistrate, but had been allowed his liberty on condition that he enlist.

**President Wilson Replies.**—Two weeks ago on the occasion of "American Sunday" at the Naval and Military Methodist Church, Esquimalt, the congregation sent a wire to President Wilson congratulating him on his wise statesmanship and America's contribution to the war in men and materials. In reply the following letter has been received from J. P. Tumulty, private secretary to President Wilson at White House, Washington, and was read in church yesterday: "The President asks me to acknowledge your kind telegram dated July 7, and to thank you warmly for having sent it. He asks me to assure you and all those concerned that he deeply appreciates your generous sentiments."

**Had No Marriage Certificate.**—Pleading guilty to a charge of not having a marriage certificate on his person to show that he is exempt from military service Arthur Earle Chandler was fined \$10 and \$2.50 costs by Magistrate Jay in the Oak Bay Police Court this morning. Accused stated that the military official who had approached him on the subject called him a "pro-German slacker" and had said that "if he had his way" accused would be stood up against a wall and shot. Accused was distributing Bible Student hand bills.

**Wants More Money.**—The Central Iron Committee has applied to the City Council for a further grant of \$150, the funds of the committee being almost exhausted. By subscriptions from public bodies, and from other sources the sum of \$2100 was raised; and there is now only a small balance in hand to carry on the work of the organization, which judging from the recent meeting appears shortly to promise some definite fruition.

**Dominion Fire Chiefs Association.**—An invitation for the Victoria Fire Chief to attend the Dominion Fire Chiefs' Association Convention has been sent to the City Council. The attitude of the Council recently in refusing to send a delegation to the Pacific Coast Fire Chiefs Association, which has much closer relation with this section, does not promise well for representation at the convention of the other body, which meets this year in Toronto at the end of next month.

## RETROACTIVE RAISE WITH NEXT CHEQUES?

Civic Employees Are Awaiting Council Action on Conciliation Board's Award

The problem now engaging attention at the City Hall is how to raise the additional sum which will have to be found to meet the award of the Conciliation Board, handed down last week. The Council is pledged to accept the award and therefore there will not be any dispute on that score. It will be necessary to amend the Expenditure By-Law and as the award is retroactive, the next pay cheques with their increases should be welcome to the staff.

It is assumed that it will add about \$10,000 to the estimates for the inside service, though no figures are yet available as to the actual increase in regard to the outside men. While the outside service is on the whole content with the award, there are some murmurings in the City Hall, as to the allocation of the payments to be made in future for clerical work. For instance five employees in the western department who have an average record of ten years continuous service will earn slightly less per capita than the garbage employees per month, while in two departments men doing identical work have a difference of \$25 per month in their pay. However, the Civic Employees Protective Association recognizes that perfection is impossible. Rumor has it that some of the aldermen do not welcome the advances to heads of departments, whose salaries were slashed during the past three years.

With regard to the essential amendment of the Expenditure By-Law to legalize the changes incident to the award, there is no immediate hurry. The work of the assessment commissioners will not be completed until the end of August, and they will then have to consider the appeals already lodged. Thus there is no expectation of the tax notices being issued until late in the fall, with probable rebate date at the usual period at the end of November. It seems impossible to get away from that late date for general taxes, much as the Council has striven to do so of recent years.

## ANOTHER SUNDAY LIST

Police Still Striving to Give Public "Intelligent Enforcement" of Lord's Day Act.

Nothing daunted by the Attorney-General's continual refusal to allow prosecution until a majority of the Police Commissioners so will, the police as usual busy themselves yesterday in trying to give the public "that intelligent enforcement of the Lord's Day Act to which they are entitled." In accordance with the precedent set up by the same performance on several Sundays past the names of all persons who violated the Sabbath were noted down, and later officially recorded. The list as usual totals something over two hundred names, the chief offenders being the owners of shoe shine establishments, tobacco stands and ice cream parlors. This list after being neatly typewritten at some considerable trouble, will be forwarded to the Attorney-General with a request from the Chief of Police that he will, in accordance with the Lord's Day Act, be allowed to prosecute Sunday violators.

## OFF TO NELSON

Hon. T. D. Pattullo and Hon. E. D. Barrow Will Attend Irrigation Convention Next Week.

The Hon. T. D. Pattullo, Minister of Lands, left the city yesterday afternoon for Nelson to preside over the proceedings of the twelfth annual convention of the Western Canada Irrigation Association, which commences its business on Wednesday, continuing until the evening of the 26th.

It is expected that Premier Oliver will be able to attend some of the sessions of the convention, calling at the interior city on his return journey from Ottawa. The Hon. E. D. Barrow will join the Minister of Lands in Vancouver and travel to Nelson with him.

## ROOF GARDEN FETE ON WEDNESDAY NEXT

Novel Red Cross Affair Planned by Members of Victoria Club

Roof garden entertainments are familiar features of life in the big metropolitan cities of the Eastern States, but are still unique in Victoria, and for this reason it is expected that a big crowd will attend the novel event to be given on the roof of the Campbell Building on Wednesday afternoon, July 24 from 2.30 to 11 p. m. Given a clear day, a magnificent view may be obtained in every direction from this particularly fine vantage point.

The members of the Victoria Club have planned the event, and the entire proceeds will be handed to the Red Cross. One of the chief attractions will be the Red Cross stall in charge of Miss Oldfield, where a bag competition will be held, each person voting on the bag which they believe will receive the prize. Donations of bags to this booth will be entered in the competition. Other attractions will include a mystic table, flower booth, fancy stall, ice cream and afternoon and high tea. As an added attraction a dance will be given in the rooms of the Victoria Club from 9 till 11 o'clock.

## IRRIGATION NEEDED TO CHEAPEN MILK

Prices Sure to Go Up If Farmers Cannot Get Food for Stock

Unless something is done immediately in the way of laying down an irrigation scheme for the Saanich Peninsula, the people of Victoria are faced with the absolute certainty of a continued and steady increase in the price of milk, in addition to which the city supply is threatened.

The first question is at the bottom of the trouble, and so keenly is the situation affecting the ranches in the neighboring districts being felt that whereas it is necessary in the cases of a number of large operators to add to their herds, if they would keep up with the demands for milk made upon them, yet, owing to the serious position in which they are placed with respect to feeding their stock, they hesitate to invest in cattle they cannot feed.

**Selling Out Herds.**  
One man from the Saanich district, who is in a position to know what he is talking about, states that already a number of owners of small herds up Island and in other sections have sold out simply because they cannot continue to operate under existing conditions of feeding stock, and he states that the most experienced dairymen in Saanich are much alarmed over the situation.

Some time ago the Board of Trade, by request, interested itself in the matter, and offered its auditorium for the free use of a meeting at which to discuss an irrigated scheme to make Saanich more productive, and considerable prominence was given in The Times to the matter, but Alderman Porter was the only one who attended the meeting.

**Moisture is Needed.**  
It is pointed out that the whole trouble on Vancouver Island is that except in the low lands, crops which thrive splendidly in the early summer months are later dwarfed or completely burned off by the heat of the sun, there being no moisture in the ground to sustain it. With an irrigation system the farmers would not need to worry even if the rain did fail them.

In the State of Washington, where there are already vast areas of land made productive by irrigation, plans are at present under way to irrigate another 40,000 acres in the Okanagan district, the project involving the carrying of water a distance of seventy-five miles in a canal. The valuable work of this nature carried on in the Pacific Coast section of the United States has been referred to by the advocates of the Saanich scheme as an instance of "how millions of dollars' worth of food can be produced by irrigation and the cost of food to the consumer lessened."

## MAYOR'S PLANS

Wire is Received From Mayor Todd Indicating Intention to Leave Toronto on Wednesday.

Mayor Todd will reach the city early next week, on his return from Ottawa, according to a wire received at the City Hall this morning. He is now in Montreal and will leave Toronto for the West on Wednesday. While dealing with other matters His Worship does not state if he has visited Levis, Quebec, to inspect the Canadian Northern Railway ferry Canora, which is due to start for the West on an early date. That was his intention when he left Victoria yesterday week, following several communications with the C. N. R. management with regard to the subject.

The Mayor will not arrive in time to attend the session of the directors of the Pacific North West Tourist Association in Portland, set later this week.

## FOUR OPIUM SMOKERS

Tried to Escape Through Hole in Wall When Police Raided Joint on Sunday Morning.

Certain members of the police force spent a rushing time on Saturday night and in the small hours of Sunday morning, for, after having rounded up fourteen inmates of a gambling den Sergeant Fry, Constables Stevens, Harper and Gullford captured four wily Orientals engaged in their favorite pastime of "hitting up the opium pipe." The offenders, Lee Howe, Lee Hong, Sing On and Lee Don appeared in the Police Court, and with the exception of Lee Howe pleaded guilty to the charge of being inmates of an opium den. They were each fined \$15 and \$2.50 costs by Magistrate Jay. It was brought forth in the evidence that on Sunday morning at a quarter

## Sonora CLEAR AS A BELL

A TONE as brilliant as the sparkle of gems and as sweet as the old love song—as clear as the Sabbath church bell's chimes and as true as the ring of a gong—this is Sonora's tone, which was awarded highest score at the Panama-Pacific International Exposition.

BEFORE you purchase your Phonograph, hear the Sonora. It will give to you, to your family and friends, years of the keenest pleasure, entertainment and enjoyment. The Sonora is the universal Phonograph. It plays all makes of disc records, thus permitting you to enjoy not only the artists retained by one company, but those retained by all companies. Besides this desirable feature of versatility, the Sonora has at least a dozen important improvements that are of great value and convenience in the reproduction of music.

At our store you may see and hear all of the latest Sonora models. Prices are no higher than what you would expect to pay for other instruments of equal size. Terms of payment are every bit as easy.

## The People's Grocerteria

749-751—YATES STREET—749-751

to one Sergeant Fry and his party of police officers set out to raid a room situated on premises at 1626 Government Street. Sergeant Fry climbed up the fire escape and entered the room through the skylight, leaving Constable Stevens on the street. The four Chinese made their escape through a small hole in the ceiling which, by a sort of tunnel, connected with the adjoining room. Sergeant Fry followed through the hole and climbing along the rafters arrested the celestial as they were quietly withdrawing by a back stair way. The Chinese tried to get rid of the implements of their opium smoking by throwing them into the street, where they were carefully collected by the police. The rest of the paraphernalia, which was produced in court was found in the room where the smoking was taking place, and which though guarded by heavily barred doors was entered by Constables Gullford and Harper.

### DOMINION

A number of familiar New York landmarks will appear in the screen version of "The House of Glass," the new Select production featuring Clara

At the Royal Victoria Theatre To-night

Kimball Young and her own company. Jefferson Market and the Penn. station, Blackwell's Island and the Tombs all figure prominently in the action of the play, and several scenes have been "shot" at each location.

That the novelty of playmaking in public places has not as yet lost its flavor was amply proved during the taking of these scenes. In each case Miss Young was quickly recognized and she and her players surrounded by an interested and admiring throng.

The house of glass is that in which dwells a prosperous railroad head who, as he is sternly pressing the prosecution of a young employee caught stealing, learns at last through the very detective whose work he is backing up that his own wife is an ex-convict.

This stirring American melodrama was adapted by Charles E. Whittaker, directed by Emile Chautard, and is a Select Star Series production. It will be shown here at the Dominion Theatre this week.

### VARIETY

"Big Bill Hart" is at the Variety to-day in the picturized version of C. Gardner Sullivan's story, "Selfish Yates," a man whose theory was "Me first and all the time—may the devil take the rest." Such a circumstance as Bill Hart in the leading role and in a story by Sullivan, whose scenes are laid in the mountains of the West, promises a splendid Hart play, and Bill is at his best in the production.

In the mining town of Thrifty Center, in the Dos Cabanas Mountains in Arizona, there was the Devil's Own Saloon, a notorious dive conducted by "Selfish" Yates, widely known as the most cold-blooded, selfish man in the West. His theory was that self should be the first consideration of every man, and although no thief or assassin, and a man whose word was as good as his bond, he looked after his individual interests first.

One day a prairie schooner, in which Mary Adams, eighteen, and her little sister, Betty, were seated, was driven to the door of the Devil's Own Saloon. Yates, amazed, glanced at Mary wonderingly, and with an air of annoyance. Among the motley crowd that greeted the newcomers were the "Oklahoma Hog," named in accordance with his appetite and "Rocking Chair" Riley, the business partner of Yates.

Yates treated the newcomers, whom he contemptuously termed "a couple of kids," with characteristic coldness. The evil eyes of Riley brightened at the sight of Mary's youthful charms, while the "Oklahoma Hog" was transported with delight at the coming of this girl, who was so different in every way from the women making the Devil's Own Saloon their headquarters. Yates, to whom Mary appealed for employment, coldly turned her over to Wong, for whom she was to work as a scrubwoman in the dance hall. How she wins the heart of the stern, flint-hearted Yates is told in a fascinating manner in "Selfish Yates," which will delight Hart's many admirers among Victoria theatre-goers. This film will be the featured attraction at the Variety all week.

### COLUMBIA

It was a foregone conclusion that a story by Mary F. Wilkins Freeman

would contain some sound character drawing and be wholesome of theme. Both of these qualities are found in "An Alabaster Box," which will be the attraction screened at the Columbia Theatre for the first three days of this week. It is a five-part Vitaphone Blue Ribbon feature, written by Mrs. Freeman and Florence Morse Kingsley, and directed by Chester Withey. The leading character of the drama is Andrew Bolton, the "big man" of a New England village, whose energy and push keep the place alive and furnish employment for nearly all the inhabitants, but whose financial failure is brought about by the refusal of his fellow townsmen to support him when he tries to enlarge his business interests, and he is sent to prison for embezzlement. Years after his daughter, who was a young child when her father was convicted, returns to the village under an assumed name, and becomes the Lady Bountiful of the place, a fortune having been left her by an uncle. Her father also returns and when his old neighbors learn the truth they turn on his daughter and attempt to wreck the old Bolton home, where she is living. Bolton tries to defend the house, and falls dead from excitement. An interesting love interest runs through the story.

Alice Joyce fits the character of Lydia Bolton to a nicety, and MacDermott plays Andrew Bolton with the necessary force and finish. Harry Ham, Patsy De Forest and Frank Crane have other important roles, and act them properly. The production is adequate, and Chester Withey has directed it with skill. The eighth episode of "The Fighting Trail" will round out a very attractive programme.

### PANTAGES

The magnificent spectacle-drama, "The Birth of a Nation," which was given this afternoon, the first of four showings at the Pantages Theatre, is undoubtedly the greatest of all spectacle plays. Such stage spectacles as "Ben Hur" or "The Blue Bird," supposed to be the high-water mark for such productions, pale into insignificance beside the epic of American history with its 2,000 scenes, 18,000 cavalry and 200,000 details, the result of eight months of tireless labor and the expenditure of half a million dollars.

"The Birth of a Nation" was suggested by Thomas Dixon's "The Clansman," and "The Leopard's Spots," and has a grandly epic quality of its own which stamps it as a masterpiece of genius. Instead of four to six scenes of conventional play, its technique permits of filming literally thousands of scenes covering a wide range of history and characters. Mr. David Wark Griffith took most of the scenes in the great out-of-doors where nature painted the backgrounds and army men directed the battle campaigns. The notable indoor scenes, such as a Ford's Theatre on the night of the Lincoln tragedy, the Peace at Appomattox and South Carolina Legislature in 1870, are exact facsimiles of the originals. The uprising of the Ku Klux Klan and the overthrow of the carpet-bagger regime in the South after the war are two of the striking episodes of the film.

The love interest of the play is based on a friendship between the family of

Cameron of the South and the Stone-mans of the North, both involved in the struggle. It is a wonderful, romantic thread running throughout the production. Synchronizing with the thrilling scenes of the story and building up a deeper significance in them is a marvellously effective music score played by a symphony orchestra of a dozen pieces. Altogether this is a splendid never fades however often it is seen. It will be shown at the Pantages to-night and to-morrow afternoon and evening.

### KUEHLMANN'S VAIN CRAFT.

Somewhat like the Bourbons of other days, the Prussians of to-day regret nothing, concede nothing. That is the burden of the wordy maze which the crafty Kuehlmann has flung about many points of the war situation, without being definite or accurate on any of them. He does not proffer peace, merely saying in what manner peace must come; his evident purpose is to sketch a background for a "German peace" of trickery, salvage and of substitution—i. e., of East for West. He has tried to talk deviously to two audiences—those at home who sigh or shout for peace, those abroad whom he hopes to incite to some degree of a similar impatience. It is a hard verbal

straddle. The best he can hope, with such tangible assertions as he makes, is to pacify the domestic impatience. He need not expect any allied converts outside a few professional pacifists.—Boston News Bureau.

### TAKING NO CHANCES.

Viscount Bryce, whose name has recently been so prominently before the public in connection with the Lich-nowsky revelations, loves a good story. Once, when presiding at a dinner of the Union League Club, he had to leave early, and his apology took the form of an anecdote.

Of two Scotchmen who had had a merry evening, one, he said, rose to leave. "Why, mon Sandy, are ye going awa' at ten o'clock?" asked the other. "I main go," replied Sandy. "I ha' changed my lodgings and I'm nae weel acquaint wi' the staircase." "And I'm nae so verra well acquaint with the staircase, yeel myself," explained Viscount Bryce as he bowed himself out.

## AMERICAN BASEBALL SITUATION GROWING VERY RUSSIAN LIKE

American League at Meeting  
Yesterday Decides to Quit;  
National Games Cancelled

### JOHNSON TELLS CHICAGO TO CARRY ON AS USUAL

Chicago, July 22.—The American Association season will close to-day and the clubs disband for the duration of the war. This decision was reached at a meeting of the league here following Secretary Baker's ruling.

Boston, July 22.—Harry Frazee, president of the Boston Red Sox, said to-night that he was "strongly opposed to President Johnson's plan to close all baseball parks after to-day's game."

Washington, July 21.—Manager Clarence Rowland, of the Chicago American League Club, to-night received a telegram from President Johnson asking him to play all games scheduled until further notice. Johnson had announced previously that all parks in the league would be closed after to-day's games, because of Secretary Baker's decision, classing baseball as non-essential under the work or fight regulations.

International to Meet.  
Auburn, N. Y., July 21.—International Baseball League Club owners to-night were notified by President Furell to meet in New York on Tuesday for the

purpose of determining the future of the league under Secretary Baker's decision of the work or fight order.

National Games Cancelled.  
Chicago, July 21.—Two games between the Cincinnati and Chicago teams of the National League, scheduled for to-morrow, were cancelled to-day by August Hermann, chairman of the National Baseball Commission, and president of the Cincinnati club, as a result of Secretary Baker's interpretation of the work or fight order as applied to baseball players. Hermann said, in a long distance conversation with Charles Wechsman, president of the Chicago club, that he was trying to arrange a meeting of National League owners in Pittsburgh Tuesday.

Hermann's Idea.  
Cincinnati, July 22.—August Hermann, chairman of the national commission, gave out the following statement relative to the work-or-fight order as it concerns baseball: "My judgment is that the two major leagues should put the matter up to the proper authorities at once to find whether we will be given a reasonable time to adjust and if necessary, close out business or whether we shall close at once. The players, without doubt, will follow the order to a man, but after all I believe they should be given time to put their house in order and to seek essential occupations. In my opinion no action should be taken until we know positively whether it is the wish of the war department that the men between the ages of twenty-one and thirty-one be called away from baseball on the instant."

Congos to Enter.  
The Congo cricket team has definitely decided to enter the Red Cross tournament. As many of the players have arranged to take their vacations during that week, it is expected that a strong eleven will be fielded.

## WILLOWS, INCOGS AND FIVE C'S VICTORIOUS

Ackroyd Scores a Century; In-  
cogs Did Not Have a Hard  
Time With Depot

The three games in the Virtue Cup cricket series played on Saturday resulted in victories for the Willows Camp, the Incogs and the Five C's. At the Jubilee Hospital grounds the Five C's by a very slim margin routed the Victoria C. C. Lea was the most noticeable player on the triumphant side with the willow.

The District Depot hit the dust before the conquering Incogs, though the latter did not have a full team in the field. Hallam and Fowler were the only military batsmen who did much, while on the other hand Sparks and Ackroyd together doubled the soldiers' score, Ackroyd managing to make a century and Sparks hitting out forty-three.

Following are the full scores of all games played:

## FINANCIAL SUIT OVER CHAMPIONSHIP HOCKEY

Toronto, July 22.—E. J. Livingston, who ran the hockey team which won the world's championship last winter, has entered at Osgoode Hall an action against the Toronto Arena Company for \$20,000, which he declares he is entitled to under an agreement by which he loaned his team of stars to the Arena Company, who operated the team with the plaintiff as a silent partner.

Livingston claims that the club receipts exceeded \$50,000. The receipts in the Stanley Cup series alone amounted to over \$20,000. The plaintiff asks for an accounting and alleges extravagance on the part of the defendants in running the team.

Livingston is said to have refused an offer of \$7,000 made by the company.

## PROGRAMME OUT FOR SHAWNIGAN REGATTA

Varied and Attractive Events  
for Affair Next Sat-  
urday, July 27

Land and water events of a most diverse and interesting character will make up the programme for the annual Shawnigan Lake Regatta to be held on Saturday. The full list of stunts which has just been released included everything from a tug-of-war to a flannel dance. The lake has always been considered the ideal site for such an affair and former regattas there are remembered as milestones in the athletic history of the island.

Boating and swimming events as usual will be the chief attraction, and Saturday will see the Lake crowded with many and various craft as well as with swimmers. There will be serious competitions in which athletic prowess will be given an opportunity of asserting itself, while on the other hand classic stunts like the greasy pole will amuse the fickle multitude.

When the water has been churned up sufficiently the crowd will repair to the Shawnigan Lake Athletic Association Hall, where a big flannel dance will be held, the music being supplied by Mrs. Watts. Immediately preceding the commencement of the provincial light flannel dance a novel stunt will be pulled off when the Sylvan Logging Company will engage in a tug-of-war with the Shawnigan Lake Logging Company for a \$50.00 prize. This contest will be the result of a defunct issued by the former organization which considers that it is possessed of some remarkable rope-pulling talent.

The full programme will be as follows:

1. Men's double sculls.
2. Men's single sculls.
3. Mixed double sculls.
4. Boys' double sculls.
5. Men's single canoe race.
6. Mixed double canoe race.
7. Outboard motor boat race.
8. Men's fifty yards swimming race.
9. Boys' twenty-five yards swimming race.
10. Ladies' twenty-five yards swimming race.
11. High dive.
12. Spring board dive.
13. Tug-of-war.
14. Flannel dance.
15. End of a perfect day.

## M'LOUGHLIN WILL TRY TO STAGE COME BACK

Philadelphia, July 22.—Maurice E. McLoughlin is about to make a re-entry to the game of the courts as a competitor in the national championship tournament. This is the word that has been out the last ten days. The hero of the Davis Cup matches, the fiery American who puts the punch in lawn tennis, is once more to take his stand upon the turf to strive for the title and cup, which his young rival, William M. Johnston, deprived him of in the memorable battle of 1916.

## GOOD TIME MADE IN AUTOMOBILE RACING

Saskatoon, Sask., July 21.—Owing to rain the track was rather greasy for Saturday's automobile racing, but nevertheless some good time was shown over all distances.

The three mile event went to Bill Endicott, with Ben Goleff second and Duray third. Time, 2:41.

In the five mile event, Jules Ellingboe won by a bonnet length after a skillfully driven race. Clifford Toft running second, with Duray, third.

The Australian five mile elimination event went to Sig Haugdahl in his 200 horsepower car. Time, 5:40.

Haugdahl tied with Jules Ellingboe for the mile event with flying start. Time, 1:35 2-5.

The Dominion Sweepstakes, ten miles, was won by Jules Ellingboe, with Toft second and Endicott, third.

## BIG LEAGUE HURLERS BECOME U. S. JACKIES

Chicago, July 22.—Rube Marquard and Burley Grimes, pitchers for the Brooklyn National League Baseball Club, enlisted in the United States navy here last night. They took the oath on the steps of a local theatre, the announcement being made that they were the latest players to obey the work or fight order. Charles Hollocher, shortstop, and Bob O'Parrell, catcher of the Chicago Cubs, have applied for enlistment in the navy at the Great Lakes Naval Training Station. It was announced at the same time.

V. I. A. A. MEETING TO-NIGHT.  
A general meeting of the V. I. A. A. will be held to-night at the Gorge Club House at eight o'clock when arrangements for the P. N. A. championship, and other matters of importance will be discussed.

## SEATTLE WILL SEE A HUGE SPORT CARNIVAL

Seattle, July 22.—A great programme of athletics has been lined up for the Victory Carnival which gets under way here next week. Those in charge of the affair have obtained the best talent in the Northwest in nearly every branch of sport to compete for honors in the university naval training school, and Seattle fans are due for a week of high class sport.

Several events of more than ordinary importance are on the card. The ten-round boxing bout between Mick King and Bob McAllister is one of the features of the week. These two ring stars will meet Saturday night for the heavyweight championship of the Coast. The All-Service baseball team vs. the All-shippard stars, scheduled for next Saturday afternoon, is considered one of the big events of the programme, while the tug-of-war competition, the championship series for the Seattle semi-professional baseball title, the all-service boxing tournament and other events will come in for their share of interest.

## TENNIS MATCHES POSTPONED.

On account of the weather clerk's perversity, it was found impossible to play the matches scheduled for Saturday in the Victoria Lawn Tennis Club's handicap tournament, so that these contests will take place to-day.

## RED CROSS CRICKET TICKETS.

The cricket authorities request that all cricketers who have unsold tickets for the recent inter-city match will turn them in immediately, in order that a financial statement may be presented.

## RED CROSS WORK

### James Bay Branch.

The children who form the workers of the James Bay "Little Red Cross Club" gave a successful garden party recently, and in connection with it, held a bazaar and sale of useful work or articles which they had made. It was held at the home of Mrs. Tomlinson, Simcoe Street, in aid of the James Bay branch funds.

Those children who have formed a Circle under the name of "The Little Red Cross Beavers," held a very successful entertainment in the grounds of the Kingston Street School, by kind permission of their teacher, Miss Lawson. The proceeds were very encouraging to these young workers and were handed into the convener of the James Bay branch to help swell the monthly funds. The convener would very much like to see the friends of the Red Cross Society give their active support and encouragement to these children's entertainments, in this way showing their appreciation of the efforts these willing workers are making to help on the good cause.

Owing to so many parents being out of the city for the school holidays, work at our branch is showing a falling off, the convener would very much appreciate the assistance of new workers at the rooms, or volunteers who would call for supplies and do the work at home. The present is a time when the utmost assistance that can be given will fall short of the requirements of so stupendous a work.

The convener acknowledges with many thanks the following donations: Mrs. McKay, two volumes; S. Leiser & Co., sugar; Smith, Evershine & Wright, ballroom; Mr. Pratt, loan of earthenware; F. R. Stewart & Co., oranges and lemons; "A Friend," twenty volumes; Masterpieces of the West—Mrs. Hayland, bundle of linen; Mrs. Chapman, 49 Oswego Street, pair of

socks; Mr. Karl, for express work; and Mrs. Hibbert for very generous help to Mrs. Jones for a splendid crate of strawberries which were raffled and won by ticket No. 288, held by Miss S. W. Robertson. Ticket No. 118 drew the box of signs. Ticket No. 381 the camisole, and ticket No. 459 the sandwich tray.

It has been decided to close for the duration of the school holidays the Young People's Sewing Class, and work will be resumed the first week in September.

At a special committee meeting held last Tuesday afternoon it was decided to hold a garden party on Wednesday, August 7, by the kind invitation of Mrs. McGregor, corner of Simcoe and Clarence Streets. The committee appointed to look after the necessary arrangements hope to have many novelties which will be a source of much pleasure to those who are able to attend and of profit to the funds of the branch. Tea will be provided, but James Bay always provides a fine time. A later announcement will furnish particulars to all interested in Red Cross work.

### North Ward Branch.

On Monday, July 15, the monthly meeting of the North Ward branch was held in the rooms, Scott Building. The convener being absent the chair was taken by Mrs. Clarke. The report of the treasurer showed membership account, \$8.50, viz., H. Roberts, \$1; Mrs. H. Roberts, \$1; Miss Partridge, \$1; Mrs. H. C. Waller, \$1; Mrs. Baker, \$1; Mrs. Adams, \$1.50; H. T. Barnett, \$2; Donations \$12.50, including A. Friend, \$10; Mrs. Ward, 50 cents; Mrs. Tait, \$2. Proceeds garden party held June 19, including a donation of \$10 from Mr. Kirby, in whose grounds the party was held, \$143.40; sale of work held by pupils and teachers of Quadra School, \$77.50; from booth at Gorge Park, July 1, \$6.81; from "Magpies," \$47.22; two 500 parties, \$29; lamp sold, \$1, making a grand total of \$345.73. Of this amount \$6.80 had been used in paying bills for the month, and the balance, \$338.93, paid onto headquarters.

The Prisoners of War Fund showed \$21 paid to headquarters. The secretary of this fund told of a donation of \$4.35 raised by a child ten years of age, by sale of lavender bags at the summer school held in St. George's School.

The secretary was asked to write a letter of thanks to the little girl Francis Ham. A donation of \$4 had also been received from Mrs. Burridge.

A pair of used linen sheets, which had been sent into the rooms were offered for sale, and \$4.50 was realized, which same was placed to the credit of the donor.

The thanks of the committee were extended to Mrs. Peden, Princess Avenue, for the donation of eight articles to be raffled or used as prizes for card parties. Also to the kind friend who sent in an electric fan, almost new, to be raffled. This fan is on exhibition in the Hillside Avenue window, and tickets can be obtained for it from members of the committee or in the room, price of ticket ten cents. It was also announced that Mrs. Pirie, Seaford Avenue, was donating a handsome asparagus fern, to be raffled. This fern will be put upon exhibition as soon as the electric fan is disposed of. A new committee to look after raffles was formed. Convener, Mrs. Ridgard; members, Mrs. Barnett and Mrs. Hunter.

More workers are needed in the rooms to take the place of those who are absent on holiday. With the great offensive now raging in France more and more supplies are needed, and the work must be "speeded up."

The raffles of the canaries, donated by Mrs. Walker, Cook Street, was completed and drawn for in the rooms on the afternoon of July 17. The lucky number was 425, held by Mrs. Tomlin, 541 Ellice Street.

## SEATTLE WILL SEE A HUGE SPORT CARNIVAL

Seattle, July 22.—A great programme of athletics has been lined up for the Victory Carnival which gets under way here next week. Those in charge of the affair have obtained the best talent in the Northwest in nearly every branch of sport to compete for honors in the university naval training school, and Seattle fans are due for a week of high class sport.

Several events of more than ordinary importance are on the card. The ten-round boxing bout between Mick King and Bob McAllister is one of the features of the week. These two ring stars will meet Saturday night for the heavyweight championship of the Coast. The All-Service baseball team vs. the All-shippard stars, scheduled for next Saturday afternoon, is considered one of the big events of the programme, while the tug-of-war competition, the championship series for the Seattle semi-professional baseball title, the all-service boxing tournament and other events will come in for their share of interest.

1912 Studebaker delivery truck, in good running order. \$500. j22-12

## MUST FILE STATEMENT

**Wheat Percentages Must Be Maintained Under Severe Penalties.**

The Canada Food Board has issued an order providing additional regulations in order to conserve wheat, by requiring the use of substitutes in the manufacture of breakfast foods, now made wholly or in part from wheat.

The order provides that no person shall manufacture any rolled wheat, wheat flakes, wheat meal or cracked wheat containing more than eighty per cent by weight of wheat. In manufacturing any of these products of the above kind, which are sold as wheat, shorts are not removed, no substitutes need be added. No alimentary paste or self-raising flour containing more than eighty per cent by weight of wheat flour may be manufactured. The manufacture of buck-wheat flour containing more than thirty-two per cent of wheat flour is prohibited.

Except for those products mentioned above, no breakfast food containing more than ten per cent of wheat, or wheat flour may be manufactured.

On or before August 1 every manufacturer of any of the products mentioned in the order must file with the board a report showing the amount of each ingredient and the proportion of the same constituting each such product made by him.

Violation of any of the provisions of the order will render the offender liable to a fine of not less than one hundred dollars and up to one thousand dollars, or to imprisonment for a period up to two months, or to both fine and imprisonment.

---

## THE WEATHER

Daily Bulletin furnished by the Victoria Meteorological Department.

Victoria, July 22—5 a. m.—The barometer is high over Northern B. C., rain is fallen in Cariboo, and showers may come general. Showers or thunderstorms have occurred in the prairie provinces.

## BE SOLD BY tender pursuant to an Order of the Supreme Court of British Columbia, dated the 28th Day of June, A.D., 1918.

The Official Liquidator of the Fernie Trust Company, Limited, has been authorized to offer for sale by tender on Monday, July 22nd, 1918, at 11 o'clock, the following property of said company as a going concern, including:

- (a) Freehold sawmill, equipped with power system, electric lighting plant, fire appliances, etc., office buildings, residences, bunk houses, situated about five miles from Fernie, British Columbia; equipped with top and bottom circular saws, and having a capacity of about 75,000 ft. in 10 hours; the whole standing in about one hundred acres of land, being approximately 1,133 acres of freehold land, and 9,566 acres held under lease from the Government of British Columbia, containing, according to a plan by J. D. Lacey & Company, overlaid with merchantable timber, classified as follows:

- 18% Douglas Fir.
- 5% White Fir.
- 19% Cedar.
- 60% Mountain Spruce.
- 7% Tamarac.
- Lodgepole Pine.

and also about:

- 3,500,000 Mining Props.
- 100,000 Shingles.
- 700,000 Cedar Fence Posts.

All located within five or six miles of Fernie, B. C. on the Crow's Nest Branch of the Canadian Pacific Railway.

(b) Logging Railway and Equipment, including:

- (a) Approximately five miles of logging railway, including branches and sidings, starting at a point near the mouth of the River about 2½ miles above Fernie, B. C., and running to the timber limits.
- (b) One Caterpillar Gears, 35-ton Locomotive.
- (c) One (1) Hetsler Gear, 19-ton Locomotive.
- (d) 15 Russell Standard, No. 26, Logging Cars.
- (e) One (1) Whirling Skidder, manufactured by Federal Iron Works.
- (f) One (1) Steam Log Loader.
- (g) One (1) Cable Car.
- (h) About 8,000 feet 1 in. Cable.
- 5,000 feet ¾ in. Cable.
- 5,000 feet ½ in. Cable.
- 5,000 ft. 3/4 in. Cable.
- 5,000 ft. 3/4 in. Cable.
- 1,000 ft. 3/4 in. Cable.
- 1,000 ft. 3/4 in. Cable.
- 1,000 ft. 3/4 in. Cable.

The above quantities are merely approximate, but are believed to be correct.

Miscellaneous Equipment, including tools, chainsaws, etc.

## GAMBLERS TRAPPED IN CHINESE RAID

Fourteen Men, Arrested in Joint  
in Chinatown, Plead  
Guilty to Charge

As a result of a raid, which took place on Saturday evening on an establishment in Chinatown where a game of chuckaluck was proceeding merrily fourteen self-confessed inmates of the joint were arraigned before Magistrate Jay in the Police Court this morning and each fined \$15.00. Hong Chong, the Chinaman who is charged with being the keeper of the den, failed to put in an appearance and forfeited \$100 bail, while the authorities were instructed to make out a warrant for his arrest. The white men who pleaded guilty to the charge of being inmates of the place were: John Fairclough, William D. Rowlands, Charles Gordon, William Kerr, William McNeer, Daniel Munro, William Fraser, Harry James, G. Domaleo, John Mason, Harry Connor, James McGilvary, Earl Johnson and Reuben Teller. Several of the offenders were soldiers.

### The Raid.

Sergeant Fry, who was in charge of the raiding expedition which brought the chuckaluck artists within the toils of the law conducted his campaign on Saturday night with strategy and precision. He went Constables Gulliford and Stevens into a fruit and ice cream store at 448 Cormorant Street behind which he had reason to believe gambling activities were proceeding. The officers, who were in plain clothes, and who were unknown to the keepers of the joint, found a game in full swing and they proceeded to risk some of their money until such time as they were ready to act. Shortly afterwards Sergeant Fry entered the store with his bat shoved down over his eyes. By holding a handkerchief up to his face he managed to elude the guard in front of the door behind which the game of chance was going on.

### Shouted Police.

Sergeant Fry quickly took charge of the back door while Constable Gulliford stationed himself before the front.

Sal. No. 1436

Messrs. Stewart Williams & Co.

Duly instructed will sell by Public Auction at Messrs. Show Rooms, Broad Street, on

Thursday and Friday  
July 25th and 26th

At 10.30 and 2.30 each day the following: Two Hydraulic Jacks, two Westinghouse Electric Motors, Cook Stoves, Steamboat Range, Leather and Wood Trunks, two Platform Scales and Weights, Sewing Machines, Cross Cut and other Saws, Picks and Mattocks, Carpenters Tools, about 100 Brass and Copper Pans, Books, Drill Steel, Show Cases, Clocks, Bureaus, Blocks and Falls, Shutter Doors, Sash Weights, Four-inch Brass Shovel, two Large Pieces, Plate Glass, Bird and Parrot Cages, a quantity of Manila Ropes, Lacing Chains, a quantity of lead, Nails, Hinges, Cloths, Shackles, Clamps, Brass Rods, Corrugated Iron Sheets, half inch and two inch Piping, Boiler Brunswick Bulk Pool Table, set of Slaters for Table, Billiard Seats, about 800 Folding Theatre Chairs, Foot Lights and Fittings, a large stock of Oriental Goods, including Sateen, Vases, Teasets, Coffe and Teapots, Jugs, Brass Finger Bowls, Lac Cabinets, Trays, Fans, Umbrellas, Brass Candlesticks, Ash Trays, Paper Knives, sets of boxes, ten heavy Pewster Tea Caddies, Slippers, Soap Stone Ornaments, a large quantity of Chinese Idols, two Carved Rosewood Tables, four Rosewood Arm Chairs, inlaid Screens, a quantity of Teasets, Baskets, Linoleum, Glazed Sashes and other goods too numerous to mention. SHERIFF'S SALE  
Of Automobiles and Accessories

Under and by virtue of a Writ of Fieri Facias issued out of the Supreme Court of British Columbia, and to me directed, against the goods and chattels of Lorenzo Joseph Quagliotti, in an action wherein the Island Amusement Company, Limited, is Plaintiff, and Lorenzo Joseph Quagliotti is Defendant, I have seized and taken possession of a number of 5-passenger Apperson motor cars and accessories, consisting of a quantity of tools, tires, pump, gasoline pump, blocks and tackle, and sundry supplies, and in obedience of an order of Court herein made by the Honorable Mr. Justice Gregory, and dated the 17th day of July, 1918, I will offer the same for sale at public auction at the Garage on Cadboro Bay Road, corner of Olympia Avenue, on Wednesday next, July 24, 1918, at 2 p.m. Goods can be seen on the morning of the sale. Terms of sale, cash.

F. G. RICHARDS, Sheriff.  
Sheriff's Office, Victoria, B.C., July 20, 1918.

## FIRE SITUATION IS QUITE SERIOUS YET PRINCE ARTHUR WILL REACH CITY SHORTLY

Several Large Outbreaks Look  
Like Incendiarism, Says  
Forest Branch  
Ceremonial Will Be Purely Informal; Inspection Duty  
Chief Business

While the situation in the coast districts has considerably improved during the last few weeks the forest fire conditions in the interior are described in official reports to the Forest Branch of the Department of Lands this morning as very dry and hazardous. Evidence in abundance has reached the Chief Forester that carelessness and incendiarism have been responsible for many of the outbreaks both on Vancouver Island and on the mainland and the Department again urges upon the public the absolute necessity for care with the camp fire. An extra bucket of water involving but little trouble may save thousands of dollars of valuable timber. Smouldering ashes fanned to flame by the breeze will quickly set parched vegetation alight.

### Good Maxim.

Break your match between your fingers before throwing it away; it is then sure to be out.

The carelessly dropped match is likewise responsible for much subsequent damage, and the Department suggests the above old method of extinguishing as a helpful maxim to be kept in mind.

In the Cranbrook district the past week has been extremely hot and dry with high winds continually. Several new fires are reported this morning, and a large conflagration on the American side is making its way steadily northwards towards the boundary line. The situation is regarded as extremely dangerous. Similar remarks apply to the general situation in the Kamloops district where twenty new fires, all owing their origin to lightning, are reported. These outbreaks are distributed over the Lillooet, Clinton and Chilcotin sections of the district, and a later report received at noon says that all have been extinguished.

### Many Electrical Storms.

The Vancouver district, including Vancouver Island, has a more hopeful outlook on the lower mainland by reason of the heavy rains during the last few days. Then again, however, entailing a cost to the department of \$1400. The situation at Duncan is still dangerous, and the same remarks apply to Nanaimo. At Nelson atmospheric conditions are exceptionally hot and dry, causing a good deal of concern to the Department. No less than seven electrical storms occurred on Thursday with light rains. Numerous lightning fires are reported, while the outbreaks at Christina Lake and Thrums have cost the Department \$2400. "Hot and breezy" is the report of Sir J. M. Burrie in the report of the fire situation. The situation is still smouldering, however, is looked upon as safe.

Incendiarism. Out of eleven new fires started in the Vernon district six were commenced by lightning and despite light showers during the week hot, dry and windy weather prevails making the situation hazardous. At Prince George exceptionally hot and dry conditions obtain, and ten new fires are reported, all of which are from five to ten miles from any roads. Rain on Friday relieved these, and four other fires reported. The Department sees incendiarism in the ten fires isolated from the roads.

## TO TACKLE NEW LIST ON THURSDAY

Local Improvement Commissioners Expect to Complete  
Present Schedule To-morrow

It is contemplated by the Local Improvement Commission to commence consideration of the next list of streets referred by the Council on Thursday afternoon. This list comprises nearly 100 by-laws, the majority referred by the Council, but added thereto a few where complaints have been lodged. It includes several by-laws on a single street, as for instance eleven on Fort Street, although in some cases they have already been before the Commissioners on individual complaints of owners. If the collector should find an excess of arrears under particular improvement by-laws, he must report the by-law to the Council for examination by the Commissioners, irrespective of the same assessment having been raised by formal complaint of a front owner. This fact accounts for a second reference affecting the same improvement.

The new list will occupy the Commissioners for two weeks at the rate of progress hitherto found feasible. It should be completed prior to the preparation of the interim report promised in August. Meanwhile there is work for the first two days this week, and possibly a third one, in cleaning up the list which has engaged attention all last week, affecting a number of by-laws.

There has been less attention to general principles, and more regard to individual complaints recently, although some important exemptions involving large sums of money remain untouched. They were deferred, however, as the assessments have not been levied against property assessed, and the city is thus losing nothing by delay.

## OBITUARY RECORD

The remains of the late Mrs. Robert H. Jameson were laid to rest in Ross Bay cemetery on Saturday afternoon amid every expression of the sorrow and esteem of a wide circle of friends and relatives. The service took place at the family residence, 2065 Oak Bay Avenue, was conducted by the Rev. W. L. Clay, assisted by Rev. J. K. Unsworth, of Nanaimo. Many friends were present and the casket was hidden beneath a wealth of particularly beautiful floral tributes. The pallbearers were Ronald McRae, John R. Mackie, Donald McLeod, William Allen, J. H. Baker and F. W. Vincent. The arrangements were under the direction of the R. G. Funeral Company.

Brig. Gen. R. G. Gwynne, C.M.G., Director General of Mobilization at Militia Headquarters, Ottawa, arrived in the city this morning and will remain here as the representative of the Minister of Militia during the occasion of the visit of His Royal Highness Prince Arthur of Connaught. Gen. Leckie as G. O. C. of M. D. 11 will also be in attendance.

When the distinguished visitor arrives he will be met by His Honor the Lieutenant-Governor, Acting Premier the Hon. J. W. de B. Harris and other members of the Provincial Executive, and an address will be presented. It is not permitted to enter public buildings upon which His Royal Highness will arrive, and those citizens who are desirous of seeing the somewhat informal ceremony will require to make frequent inquiries during the next few days.

It will be understood that Prince Arthur is returning from a special mission to the Emperor of Japan, and while in this country he will concern himself solely with military inspection work, of course taking advantage of the opportunity by paying calls at all important establishments which returned soldiers are undergoing treatment. One day, however, will be set aside for a fishing trip to Cowichan, where His Royal Highness will throw off the care of state and test his prowess with rod and line.

On the completion of his visit the Prince will proceed to Vancouver and remain in that city for a few days, a couple of days before traveling eastward.

## THE FATHER OF THE AEROPLANE

A Talk With Orville Wright.  
By Frank Dillist in The London Chronicle.

A few days ago I stood in a big meadow at Dayton, Ohio, near a modern battle plane which was just preparing for flight, and talked with Mr. Orville Wright, one of the two famous brothers who first left the ground in a heavier than air machine and established the foundations of the aeroplane as we know it today.

The father of the aeroplane—for he is no less than that now that his brother Wilbur is dead—is a quiet-voiced, slender little man, strongly reminiscent of Sir J. M. Burrie in his reticence and modesty. I thought he looked very English when I was introduced, in his dark overcoat, bowler hat and trim moustache touched with grey. There was a certain gleam in his eyes, however, which seemed to see one. He was very interested in what the visitors had to say—very much more interested than in explaining his own views. Wilbur, the elder brother, was him, and a practised observer of men and things, if without knowledge of the man, would have found him a person of culture, something of a dreamer, and a life time of action who had produced one of the world's greatest discoveries.

Progress in Aerial Invention. I had the advantage of several hours with Mr. Wright during the afternoon and evening of my visit. He was enabled to get a little nearer the real man than is usually possible on a formal few moments introduction. It was as we stood in the meadow watching the huge war plane making ready, and smiling at the grim face of the experienced pilot as he learned that he was to take up a young enthusiast who had never been in the air before, that I asked Mr. Wright if there was not a tremendous difference between his initial aeroplane and those marvels of science which are now engaged in battle over the Western front.

To my surprise he said there was little difference in fundamentals. The wings were very much larger and, of course, there were a score of incidental improvements, but so far as the general idea and the general appearance went, there was not a great deal of difference. Later on I asked Mr. Wright to tell me about the historic moment when his aeroplane first left the ground and went into the air. He smiled at the memory, and his eyes lighted up. "My brother Wilbur and I had been experimenting with gliders on the sides of hills for some time," he said. "We had devoted ourselves to exhaustive calculations with regard to progress through the air, calculations which, of course, were increased and multiplied as our experiments progressed. Finally, we built an airship and put a motor in it, with a view to trying to make a flight. We went down to North Carolina on the shore. It was in the winter, on December 17, 1903, that we made the venture down there. We got the machine out in the morning—I remember it was about 10.30. There was nobody about, but while we were fixing up things a man made his appearance, attracted by the unusual sight of the aeroplane.

"What is this?" he asked. I told him it was a flying machine.

"Do you expect to fly with it?" he said, smilingly.

"Yes," I answered, "that is, if the conditions are favorable."

"Oh, yes," he said, "your machine will fly—if the conditions are favorable."

The intonation made his meaning perfectly clear. He went off and left us, apparently having no time to waste on such useless fads. The moment came when we were to start the machine. It was a question who should make the first trip, Wilbur or I. We tossed a penny as to who should be the first. Wilbur won. He got into the machine, and then after a lot of trying we couldn't start it. We spent some time in adjustment, and then I took my turn. The machine began to rise in an undulating kind of way, then it got clear off the ground, some fifteen feet or more, and I made a flight of something like 150 feet. That was the first flight. Later in the day we had longer trips."

Flying Machines in Warfare. I asked Mr. Wright if he had any idea, when he and his brother were trying to make the flying machine, as to their eventual use in war.

"From the very first," he said, "the idea of their use in that way was in my mind."

I asked him if in the course of his

experiments he had read a story by H. G. Wells in which the author brought into being flight of aircraft, demonstrating their destructiveness, and going so far as to visualize air battles over American territory. Mr. Wright pondered for a moment. "No," he said; "I heard of the story afterwards. I certainly didn't read it before. I don't think I have read it now." He spoke apologetically.

Mr. Wright lives at Dayton with his sister. She has been a great help to him all his life. The mention of her continually creeps into his conversation. I asked him his address. "Oh, just Orville Wright, Dayton," he said. I suggested "Orville Wright, America," might conceivably reach him. "Oh, yes," he said in a matter of fact way. "Letters addressed to 'Miss Wright, United States' have been more than once delivered to my sister here."

Mr. Wright still finds interest in his laboratories and experimental work. He is giving the benefit of his knowledge, experience and inventive skill to the Government and, of course, consultations with him by aircraft authorities are frequent.

So far as the present situation is concerned, he pointed out how the continual improvement in aeroplanes for war purposes had held up quantity production, but how a point had been reached when the manufacture of machines could go forward in great volume. He had not the slightest doubt that the resources in America could produce machines both of quality and quantity sufficient to swamp anything that Germany could achieve.

**PUGNACIOUS FISH.**

It is the custom at Singapore to stock garden ponds with queer fish—many of them of the fighting variety so dear to the art of the Oriental. These fish are so combative that it is only necessary to place two of them near each other and irritate them a little to bring about a lively conflict. They charge each other, with fins erect, at the same time changing color in their excitement from the dullest greens to brilliant reds and blues.

Indeed, confinement in close quarters is not needed to arouse their combative propensities. Place two glass jars close together, with one of these fighting fish in each, and they will at once swim round and endeavor to charge each other through the interposed glass. Even a single fish, seeing itself reflected in a mirror, will dart at its own image, and irritated all the more by its failure to reach the supposed enemy, will assume brilliant hues; seeing its reflected antagonist do the same, it will redouble its efforts.—Tit-Bits.

## HONORABLY REJECTED MEN NOW ORGANIZED

One Association is Already Formed in Vancouver; Others to Follow

That the honorably rejected volunteers do not intend to be left out in the cold for want of organization is suggested by an excerpt culled from the latest issue of the B. C. Veterans' weekly. The extract reads as follows: "At the Dominion convention of the Great War Veterans' Association, to be held in Toronto on July 29, it is quite likely that a resolution will be presented inviting support of the Honorably Rejected Volunteers' Association of Canada. The aim of the H. R. V. A. since organization has been to work in harmony with the premier returned soldiers' organization, for it was recognized that in many ways both organizations had similar objects, chief of which has been safeguarding the rights of the men overseas and those who have returned and seeing that dependents of men overseas were given that consideration to which their position entitled them."

The H. R. V. A. at the Toronto meeting will also ask that the Great War Veterans assist them in organizing branches of their association throughout Canada. Next to a G. W. V. A., there is nothing in any community that will give the returned men more support, moral and otherwise, where that is possible, than an Honorably Rejected Volunteers' Association, for the honorably rejected men's association is composed of men who, like the members of the Great War Veterans' Association, have endeavored to do their full share for the empire in its present trials.

Vancouver Organized. "Vancouver has formed the first H. R. V. A. organization, and other branches are now in course of organization. It is felt that if the Great War Veterans desired they could aid considerably in suggesting to the right people the advisability of organizing other branches in various portions of the Dominion. While the G. W. V. A. will be a powerful organization when the war is over and the men overseas have returned, in mere point of numbers they will not be strong enough to force recognition of their just demands. It is obvious that they must have a strong public sentiment behind them if they are to attain their full share of recognition."

Boost For G. W. V. A. "Realizing this, it is apparent that in the H. R. V. A. the Great War Veterans have what might be termed an auxiliary association that they would do well to foster. The H. R. V. A., of course, has aims that are purely personal as well as has the G. W. V. A., but these in no way clash with each other, and both organizations can work together to the mutual advantage of both. It was in realization of this that the H. R. V. A. approached the G. W. V. A. for moral support and there is little question in the minds of members of the Vancouver branch that the Toronto convention will go on record as endorsing the H. R. V. A. The fact that the latter organization is in good hands in the personnel of all the G. W. V. A. men who are going to Toronto and who are thoroughly familiar with the whole situation."

A First Class Camp Lantern for \$1.95. One that gives a large light, that uses a little oil, that is handy to carry, that is handy to hang up or set on a table, one that is extra well made, and looks well, \$1.95 at R. A. Brown & Co's., 1382 Douglas St.

## MAYNARD & SONS

## IT STOPPED MY SUFFERING

Said Mrs. Jaynes, Speaking of Lydia E. Pinkham's Vegetable Compound.

Anderson, S. C.—"I got into an awful condition with what the doctors said was an organic displacement. I would have pains so badly that they would have to put hot clothes on me and give me morphine. The doctor said I would never be any better without an operation and I would never have any children without it. A neighbor who knew what your medicine would do advised me to give Lydia E. Pinkham's Vegetable Compound a trial. I did so and it made me a well woman and the next September I gave birth to a healthy baby boy."—Mrs. SALLIE JAYNES, 37 Lyon St., Anderson, S. C.

The letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

## MORE TRAVEL WILL BE DONE BY MOTOR

Restrictions on Railway Transportation Force Tourists to Follow Roads

Indications are that more than ever before tourists will do their holidaying in their own automobiles, and as July and August are the big touring months for the business people of the United States, the highways of Vancouver Island and the whole Georgia Circuit will see a great deal of travel this year.

The Government of the United States has made it almost prohibitive to travel by the railways except for urgent reasons affecting health and business of the utmost importance. Formerly, the tourists were in the habit of leaving their cars at home, but under present conditions they are obliged to look to their own means of transportation if they desire to travel. Some little misunderstanding has recently developed since the National Registration was ordered in Canada, and the impression has got abroad that tourists from across the border must register on their arrival here. This is not the case, however, and no obstructions have been placed in the way of tourist travel.

## WHEAT FOR POULTRY WILL NOT LAST LONG

Recommendation Made for Scratch Food; Sale of Grit in Food Criticized

In view of the shortage of wheat available for poultry food, the local committee of the Canada Food Board is making a recommendation to the effect that wheat used for poultry food should hereafter be used in the proportion of only twenty-five per cent. in the mixing of scratch food. Dealers are not permitted to use milling wheat under any circumstances, and this recommendation of course applies to the wheat which is now allowed for that purpose.

Under present conditions the available supply of wheat will probably run out in September, whereas the committee figures that if the recommendation is acted upon the supply can be stretched out so as to run along well into the winter, when the new crop will be available.

Respecting the possibility of the Canada Food Board taking up the matter of regulating mixtures for poultry use with a view to eliminating the practice adopted by many dealers

## Brain Fag

You are mentally tired. The strain has been continuous. The supply of nerve force is running low.

You cannot leave for a long rest in the country, and it is therefore necessary that you have assistance where you are. Help awaits you in the form of Dr. Chase's Nerve Food.

This great restorative feeds the nerves back to health and vigor. It restores the energy and vitality that is necessary to success and the healthful enjoyment of life.

certain reports his auto was struck by a troop railway train at a high crossing, the injuries occasioned thereby necessitating hospital treatment from March last until a few weeks ago. Major Clark is now en route to Ottawa, where he will report to Gen. Otter for special service in Canada.

## CIVIC EMPLOYEES' AWARD

Various Matters Up for Discussion at Monday's Council Meeting.

Of the matters to come up before the City Council on Monday the most important will be the consideration of the award on civic employees' wages made by the Conciliation Board. Other matters on the agenda include a report by Building Inspector W. W. Northcott on the condition of the buildings at the Willows military camp, an application by the Central Iron Committee for a donation to its committee funds, a recommendation by the Finance Committee favoring the appointment of A. G. Robertson, Fair Weights and Measures Officer, to succeed Market Superintendent J. Smith, a report by the Streets, Sewers and Sanitary Committee on proposed improvements, the condition of Sixth Street, and Irma Street sewers, and the stagnant water nuisance in the vicinity of the First Baptist Church; opposition by the Saanich municipality to the proposed cemetery on the Scott property, and the report of the Local Improvement Commission on suggested improvements to Oak Bay Avenue.

An amateur may be a person who has entered the first stage of ignorance.

of mixing grit shell and charcoal in the feed, the local committee has no information. Nevertheless this is a question that has been discussed considerably of late, and keepers of poultry strenuously object to the idea of paying for a lot of dead matter when the actual feed is so extremely high-priced.

## AGRICULTURE UNDER FIRE

Former Provincial Official Acted as Expert Agriculturist to Third British Army in France.

After eighteen months service overseas Major J. W. Clark, formerly agricultural expert at the Provincial Home at Kamloops, returned to the Province and was a week-end visitor to the city. Major Clark left the Vernon mobilization camp with the 172nd Battalion in October, 1916, in command of No. 1 company, and shortly after that unit lost its identity he crossed to France with a reinforcing draft.

After a short spell in the trenches his expert knowledge of intensive agriculture was pressed into the service and arrangements made for him to be loaned to the 3rd British Army with the appointment of Agricultural Officer, his chief being Gen. Lord Radnor. For a considerable time Major Clark found much to do in the general oversight in the process of rehabilitating the devastated French farming districts close behind the firing lines. After carrying out extremely useful organization work, placing under production many acres of shell ploughed land, the Major met with a severe accident which ended his work in France and resulted in his return to Canada. While en route to headquarters with

is in Hospital.—Captain H. L. Rough, son of Mr. and Mrs. E. G. Rough, of this city, is in one of the hospitals at Rouen suffering from gunshot wounds received in the thigh while serving with the Royal Air Force. He has been on active service for over three years.
